

## WORSE

ARE CONDITIONS THAN AT FIRST  
REPORTED.

ADDITIONAL ADVICES RECEIVED  
FROM STRICKEN DISTRICT.

MORE PROVISIONS ARE NEEDED.

Committees Appointed to Secure Sub-  
scriptions—The Eruption on St.  
Vincent is Moderating.

London, May 14.—Colonial Secretary Chamberlain has received a cable regarding conditions in the island of St. Vincent from Governor Llewellyn, of the Windward Islands. The dispatch is dated St. Vincent and reads: "I arrived yesterday and found the state of affairs much worse than given in the reports forwarded by the administrator."

"The country on the east coast between Robin Rock and Georgetown was apparently struck and devastated in a manner similar to St. Pierre, Martinique. I fear practically all living things were killed. The dead will probably reach 1,000, but the exact number will never be known. The managers and owners of estates and their families, several of the better class, were killed."

"One thousand have been found and buried."

"One hundred and sixty have been sent to the hospitals in Georgetown. Of this number probably six will recover."

"The details are too harrowing to describe."

"I have a coasting steamer from St. Lucia running up and down the coast with water and provisions. Twenty-two hundred pounds worth of relief has been received."

"I have asked the governor of Trinidad to lend a medical officer and have ordered one from Grenada. The indefatigable remains here."

"All the neighboring British colonies are giving assistance generously. The awful calamity is now fully realized and every effort is being made to grapple with it. All the beet sugar estates in the Caribbean country are devastated and the cattle dead. The eruption continues, but is apparently moderating. Anxiety is still felt. All the officers and residents are co-operating with me. The ladies are making articles of clothing."

### RELIEF SHIP SAILS.

New York, May 14.—The relief ship Dixie with supplies for Martinique will sail this afternoon. She will carry sugar, tea, coffee, two hundred thousand pounds of bread, 11,000 pairs of trousers, shoes, milk, soups and all comforts sufficient to clothe and feed the Martinique people for many days.

### GOVERNOR HELD RESPONSIBLE.

Fort de France, Martinique, May 14.—Governor Mouttet who lost his life in the eruption is said to be responsible for the total loss of life in St. Pierre. On the advice of a number of scientific men of the city he refused to allow any general exodus from St. Pierre. This was on May 7. The next day the city was overwhelmed.

## SURVIVOR

Tells of His Terrible Experience in the  
Harbor of St. Pierre When the  
Eruption Occurred.

New York, May 14.—James Taylor, who was one of the officers of the Roraima, the Quebec line steamship, which was destroyed in the harbor of St. Pierre, gives a graphic account of the tragedy of last Thursday, says a dispatch to the Herald from St. Kitts, Island of St. Christopher, B. W. I.

"We experienced the greatest difficulty in getting into port," he said. "Appalling sounds were issuing from the mountains behind the town which were shrouded in darkness. All the passengers were up and some were trying to obtain photographs."

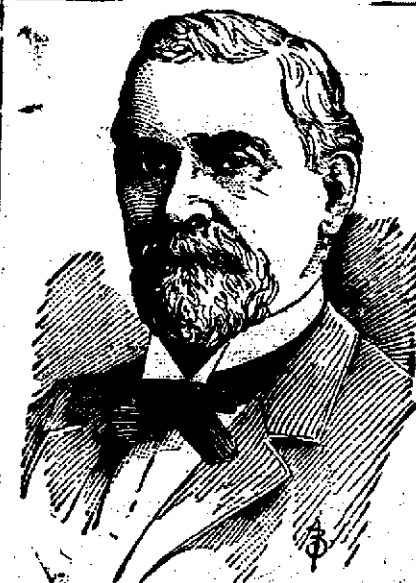

"Suddenly I heard a tremendous explosion. Ashes began to fall thicker

(Continued on Page 6, 4th col.)

## PALMER'S WILL

Divided Property Between Widow and  
Sons But Mrs. Palmer is in Su-  
preme Control.

Chicago, May 14.—By the will of the late Potter Palmer, his widow, Mrs. Bertha Honore Palmer, succeeds him as head of an estate conservatively es-

POTTER PALMER. The property goes jointly to Mrs. Palmer and their sons, Honore and Potter, Jr., but Mrs. Palmer is given almost unlimited control of the ultimate disposition of it. It is explained that the testator made this arrangement on account of the great confidence he had in Mrs. Palmer's ability and judgment, and not through any lack of faith in their sons. He makes it clear that he wishes her to carry out the plans they had made together. There are no bequests for public purposes or charity, save a provision by which Mrs. Palmer is authorized to expend \$200,000 for a woman's memorial building, if a site is given by the city in the Lake Front Park.

## FIFTEEN DEAD

WHILE THE INJURED NUMBER  
OVER 300.

Property Loss is Estimated at \$175,000.  
About 1500 Houses Have Been  
Damaged.

Pittsburg, May 14.—Albert Nery, 10 years old, a victim of the Sheridan disaster, died in a hospital this morning, making the Coroner's official total 16. Railway surgeons report four other deaths and it is believed three or four foreign section hands were cremated in the yards.

Pittsburg, Pa., May 14.—The full extent of the Sheridan disaster may never be known. It is believed that some of the victims of the Pan Handle railroad explosion were consumed by fire. The inhalation of the flames may cause many more deaths. The fire has consumed nearly all of the wreck. Half of the homes in the vicinity of the catastrophe contain at least one sufferer, a large percentage of the victims being children. The following revised summary gives an idea of the extent of the horrible disaster:

Number of persons killed	15
Persons injured seriously	25
Less seriously injured, at least	300
Number of houses totally destroyed	6
Houses damaged (estimated)	1500
Freight cars destroyed	35
Damage to property (estim)	\$175,000

**SOLDIERS' MONUMENTS.**  
Columbus, May 14.—Major W. F. Goodspeed, Columbus; Capt. Richard B. Crawford of Stark county, and Capt. A. W. Adams, Wood county, were today appointed as a commission for the erection of monuments to Ohio organizations participating in the battles of Missionary Ridge and Lookout Mountain.

"No darkened house, no durable coffin, no special mourning attire, no brick grave, no unnecessary show, no avoidable expenses and no unusual eating and drinking." Such are a few of the advantages offered to members of the British Funeral Reformers' Association.

## YIELDED

HAS PRESIDENT TO HANNA'S IM-  
PORTUNITIES

SO RATHBONE'S CASE WILL BE  
RECONSIDERED.

GOVERNOR WOOD IS ORDERED

To Have Law Amended—It May Clear  
the Way for Neely et al to  
Escape.

Washington, May 14.—President Roosevelt has yielded to the importunities of Senator Hanna and granted a new trial to Estes G. Rathbone, who was convicted of participating in the Cuban postal frauds, as telegraphed to the Advocate yesterday. In this action he has the sanction of the cabinet, which decided that Senator Hanna should be accommodated. Secretary Root is understood to have held out against the granting of a new trial, but was persuaded to relinquish his opposition by Mr. Roosevelt, who was anxious to avoid a clash with the powerful chairman of the Republican National committee.

When Mr. Roosevelt took his seat as President no one would have believed that he would knuckle under to Hanna in a matter of this kind. But scarcely anybody here was surprised to learn of his decision. They feel he does not wish to endanger his chances of re-election in 1904 by running counter to the wishes of the man who controls the machinery of the party, and has therefore done what his conscience and better judgment tells him should not be done.

In the order sent General Wood it is stated that since the constitution of Cuba will exclude the President of Cuba from the power to pardon public officers, already convicted, it is deemed desirable that the supreme court should review such cases upon all questions affecting the defendant's substantial rights. Gen. Wood is then directed to promulgate an amendment of the law of criminal procedure. The amendment ordered provides that upon an appeal the supreme court shall have jurisdiction to review all questions of fact, law and procedure arising upon the testimony, record the proceedings and to either affirm the sentence, dismiss the proceeding, award a new trial or make such other judgment of order as substantial justice shall require and that the supreme court may upon such hearing take any additional evidence which it deems necessary in the interest of justice.

The worst result of the President's action, it is thought, will be that it will tend to open the prison gates not only to Rathbone, but to Neely, and all the other United States officials in Cuba who went wrong.

It is believed that the Cuban court of appeals will interpret the granting of the new trial as instructions to set Rathbone free, and counsel for the other men now under conviction will lose no time in following in the footsteps of Hanna's friend and have some Republican politician, powerful enough to overawe the President, go to the front for them.

The general impression is that the President has made a bad political blunder, and that it will cost him in the end more than if he had put up a fight against Hanna. Clemency for Rathbone, for that is what it really amounts to, will, it is said, leave the effect of convincing other evil minded officials that they have little or nothing to fear from defrauding the government, and that a premium will thus be placed upon wrongdoing, with the result that more scandals will quickly arise to plague the administration.

**BRITISH MULE SHIPMENTS  
DECLARED A VIOLATION.**

New Orleans May 14.—The Louisiana legislature has passed a joint resolution declaring British mule shipments a violation of the neutrality laws, endorsing Governor Heard's stand and authorizing him to take any steps in the matter he sees fit.

### MINERS' CONVENTION.

Hazleton, Pa., May 14.—The miners' convention opened at 10 o'clock and a half hour later adjourned until 1:30 p. m., when the committee on credentials reported.

## LOUBET STARTS

President of France Starts on Visit to  
the Czar—M. Delcasse Goes  
With Him.

Paris, May 13.—President Loubet, who is on his way to visit the Czar of Russia, left here for Brest, and the French cruiser Montcalm, which is to take the President to Russia, left Brest this afternoon. Mr. Waldeck-Rousseau, the premier, M. de Lanesan, the minister of marine and M. Delcasse the minister of foreign affairs, accompanied President Loubet to Brest. M. Delcasse only will go with him to Russia.

The President was cheered along the route to the railroad station. If the Montcalm encounters too much ice in the Baltic, President Loubet will be landed at Revel, on the Gulf of Finland, and will proceed from there to St. Petersburg by rail.

## SPAIN SHOWERS

HONORS ON THE ENVOY OF THE  
UNITED STATES.

Rev. Dr. Curry Treated as a Prince of  
the Blood and Assigned a House  
at Madrid.

Madrid, May 14.—Rev. Dr. Jabez L. M. Curry, the special representative of the United States at the coronation of King Alfonso, which is to take place Saturday, has arrived. The American envoy was driven in a royal landau to the residence which he will occupy during his stay in this city.

Dr. Curry reached the house in time to witness from the window the first ceremony connected with the present festival, which was attended by the King, the Queen Regent and the court, namely, the laying of the foundation stone of a free school. The American envoy has been placed on practically the same footing as foreign princes of the blood, and is treated with greater honor than the other extraordinary envoys, with the exception of the envoy of France.

Dr. Curry has a house to himself, servants, a French cook, and a royal carriage, with a coachman and footmen in the palace livery, whereas the other envoys are lodged at hotels.

The mansion set apart for the use of Dr. Curry belonged to an English lady, the Marquise de Leuville, who died before it was completed. The workmen hurriedly finished the picturesque residence. It is of medieval appearance and is situated on high ground within a stone's throw of the palace, commanding a magnificent panorama of miles of scenery, reaching to the foot of the Sierra Quadarrama. The house is richly furnished with ancient tapestries and other rare works of Spanish art.

The government reserved a most pleasant surprise for Dr. Curry in the selection of his old friend, the Marquis Vialablar, to attend him while in Madrid. The Marquis was formerly a Secretary of the Spanish legation at Washington. Dr. Curry was formerly United States Minister at Madrid.

Dr. Curry then of Virginia, was appointed Minister to Madrid by President Cleveland, Thomas F. Bayard being Secretary of State. Dr. Curry wrote the Secretary about being "pointed at" as conspicuous at court functions because he was the only man attired as a civilian. Secretary Bayard returned him a most caustic letter to be found in the "Diplomatic History of the United States," in which he was told that he should be proud to appear in the garb of an American citizen.

Many Boers in the British concentration camps are studying medicine, law and civil engineering.

There is no reason why electric fans should not be put in operation before currants are ripe.

Senator Hanna has a dinner set of 12 plates, originally made for the Austrian Emperor. The decorations of each plate is a facsimile of some famous painting.

Major General Henry E. Darborn's sword, used by him in the battle of Bunker Hill, is for sale in New York; also the gold-laced dress coat which he wore when in 1822 he was presented at the Court of Lisbon as the first American Minister to Portugal.

## SEVERO'S

DEATH WAS CAUSED NOT BY THE  
TERRIBLE FALL,

BUT BY SUFFOCATION FOLLOW-  
ING EXPLOSION.

EXPERTS DIFFER AS TO CAUSE

Of the Disaster—The Wife Who Wit-  
nessed the Catastrophe is Pros-  
trated With Grief.

Paris, May 14.—Experts differ as to the precise cause of the explosion which shattered the airship of Severo, the rival of Santos Dumont, and resulted in the death of the owner and his engineer Monday.

A physician who made an examination immediately after the accident declares that the victims were not killed by the force of the fall, which shattered both bodies almost beyond recognition, but died of suffocation. The engineer was terribly burned. His face and hands were so carbonized that the flesh fell when touched, leaving bare the bones.

Senor Severo's wife and friends who followed the course of the ship in automobiles, declare that as it drew near Mt. Parnasse a flash of flame was seen to spurt out of the outer envelope of the balloon almost covering the motor and car in which the inventor and engineer were seated. A deafening report followed, and the bodies of the two men were thrown far out of the ship. The motor was detached from the balloon, which was torn to shreds and fell almost on top of the bodies.

Senor Severo struck on his feet with such terrific force that his leg bones were driven through the soles of his shoes and almost all the other bones of his body were fractured. His abdomen was ripped open by the branches of the trees which he struck in falling or by the broken pieces of the car. The body of the engineer, M. Suchet was in even more shocking condition. Besides the terrible burns which bared the bones of his face, his skull was fractured and his limbs shattered.

Senora Severo, who was prostrated, was taken in an almost unconscious condition to her home.

M. La Chambre, who constructed the air ship is of the opinion that the outer covering of the balloon must have caught fire through the heating of the connecting shaft at a place at right angles with the center of the ship. There are others, however, who believe that in some inexplicable way the spirits in one of the reservoirs was set on fire possibly by the ignition of gas at some point of leakage.

The air ship started splendidly, although Senor Avaro an intimate friend of the inventor, refused to take part in the ascent at the last moment on account of a thickening fog. Senor Severo, after the ship had attained a considerable height, put it through a number of evolutions and then set off toward Issy.

By this time it was evident that the rear propelling screw was working with difficulty and that the steering gear was out of order, but the progress of the ship was not seriously impeded.

Suddenly a puff of wind struck the machine and whirled it from the Boulevard de Vaugirard along which it was sailing over to the Avenue du Maine. The ship turned completely round, and the faulty propeller and steering apparatus obviously lost all control of its movements.

It was at this moment the explosion took place. The people in the automobiles, who were near enough to reach the victims within a few moments, found them both quite dead and Senor Severo's body hardly warm.

### Cross Plead Guilty.

Washington C. H., May 14.—Henry Cross, indicted for murder in the first degree for beating to death 9-year-old Ralph Thompson, was permitted to plead guilty to murder in the second degree and was sentenced to life imprisonment. Cross recently stabbed his wife and then attempted suicide in the county jail, where she had gone to visit him.

**STORK'S VISIT EXPECTED.**  
St. Petersburg, May 14.—The ac-  
couchement of the Czarina is expected in September.

## HOBSON

Wants to be Retired—He Cannot Af-  
ford to Resign—May Appeal to  
Congress.

Washington, May 14.—Captain Rich-  
mond P. Hobson, the hero of the Mer-  
rimac incident in the Santiago cam-  
paign, made a plea before the House

Photo copyright, 1901, by Purdy, Boston.  
RICHMOND P. HOBSON.

Committee on Military Affairs in favor of the bill to retire him as a Captain on two-thirds of a Lieutenant's pay. Captain Hobson's case is one of unusual interest not only because of the brilliancy of his career in the Navy, but on account of the peculiarity of his affliction. He is threatened with blindness, and yet to all intents and purposes is at present physically sound. Unfortunately for him, the law does not contemplate the future disabilities of officers in providing for their retirement, and while the Retiring Board agrees that Captain Hobson, if he remains in the service, will probably lose his eyesight, it is prevented from retiring him until that deplorable condition becomes an actuality. Captain Hobson is, therefore, under present conditions, confronted with the alternative of remaining in the service until his eyesight is partially if not entirely destroyed, when he can be retired, or of leaving the service now without means of support, as it is well known that he has no private fortune, and would be inhibited from following his life-long profession out of the navy as well as in it. His only hope lies in an appeal to Congress, which by the enactment of the bill can provide for his retirement. The committee took no action.

### Famine Stalks In Russia.

St. Petersburg, May 14.—Drouth and frost have greatly damaged the winter sowings in the Baltic provinces, and the peasants are reduced to feeding their stock on rotten straw from roofs of cottages. Enormous crowds of starving peasants are flocking to Moscow from the Central province, in search of means of existence. Half a dozen freight trains, each carrying some 1500 persons, are dispatched daily from Blagovest, about 100 miles from Moscow, in addition to the ordinary traffic. The railroad station at Riazan is inadequate to hold the refugees, and the wretched crowds bivouac in the open air, suffering from rain, cold and hunger.

## DESERTED

From the Army to Kill Himself in  
Sight of the Girl Who Refused  
to Marry Him.

Huntington, W. Va., May 14.—On the campus of Marshall College and with in sight of the home of the young lady who had refused to become his wife, Ray Evans late yesterday afternoon ended his earthly career by blowing his brains out with a revolver. Evans lived in Charleston, W. Va., and two months ago enlisted in the United States Army. Since then he has been at Columbus (Ohio) Barracks, but last Friday he deserted and came to this city to see Pearl Williams, who just before he enlisted had refused to become his bride. This is what caused Evans to leave a good home and seek the life of a soldier. Recently he learned that he was to be sent to the Philippines and, realizing that he might never again see the one he loved, he deserted, came to Huntington, and in plain view of the home of the girl, ended his life. He was aged 24, and of good parentage.

## GIRLS

WHO ARE IN LOVE WITH THE  
SAME MAN,

FIGHT A DUEL BUT NEITHER IS  
INJURED.

BULLET HIT ONE OF SECONDS.

Ending the Fight and the Principals  
Then Declared Themselves Satis-  
fied.—A Southern Affair.

Memphis, Tenn., May 14.—It has just been learned that Miss A. W. Arthur of Poinsett county, Arkansas, fought a duel recently with Miss Minnie Russell, over the affections of Henry Ward, who has been paying attention to both. Miss Arthur met Ward at a party and the couple fell in love. He was already engaged to Miss Russell, but broke the engagement. When she and her friends learned the cause they declared they would be avenged. Miss Russell lay in wait for Miss Arthur and attempted to horsewhip her, but Miss Arthur took the whip away, laying it across the shoulders of her assailant. Then Miss Russell challenged her to a duel, and the affair was arranged for the early morning. It was to be with pistols and the parties were all females, with the exception of a doctor, whose services had been arranged for, but who was sworn to secrecy. They met and three shots were exchanged. The principals were uninjured, but one of the seconds, Miss Effie Hillaer, was wounded by a bullet which, flying wide of its mark, grazed her shoulder. This ended the duel, and the principals declared themselves satisfied. No arrests were made.

### GOVERNOR STARTS.

Columbus, May 14.—Governor Nash left this afternoon for Indianapolis. Following the dedication the Governor will go to French Lick, Hot Springs for a two weeks' rest.

## GIRL HORSE THIEF

COULD NOT REPEAT THE LORD'S  
PRAYER,

So the Original Sentence of the Court  
Stood—Birdie Goes to the  
Penitentiary.

Fort Scott, Kansas, May 14.—Birdie McCarth, a horse thief, was sentenced to five years in prison Tuesday. In answer to inquiries she told the court she was raised to go to church and knew the Lord's prayer. After passing sentence the court offered to reduce it a year if she could repeat the prayer, but she hung her head, could not call the first line and the sentence stood.

### CHICAGO'S GAS STRIKE.

Chicago, May 14.—By obtaining non-union gas makers, the local companies have temporarily averted the danger of a famine in illuminating gas. Labor unions have declared a lockout against the companies and a long and stubborn strike is expected. The estimate of the number of men out is reduced to 500.

## THREE BROKE JAIL

BUT 'T WAS A TIGHT SQUEEZE FOR  
THE FAT MAN.

Left Fragments of Skin on the Bricks.  
Opening in the Wall Was But  
15x7 Inches.

Clarksburg, W. Va., May 14.—James Kirkpatrick, Henry Lowery and Lem Wyman dug their way out of jail by making a hole in the wall 15x7 inches. Wyman and Lowery got through easily, but Kirkpatrick, who is fat, weighing 250 pounds, stripped and soaped his body, and after several exertions his pals dragged him out. He left blood and fragments of skin on the bricks.

Hoax—Why can't an automobile walk? Joax—Because it's tired. The amount of French capital invested in China exceeds \$100,000,000.

## WAS THE AMERICAN REVOLUTION WRONG?

One of the notable debates in the United States Senate in recent years was the bout between Senator Carmack, of Tennessee, and Senator Dooliver, the fluent Republican spell binder of Iowa.

Senator Carmack, who is acknowledged on all sides as an orator of great force and learning, has been likened by admirers to Edmund Burke.

Senator Dooliver, in reply to Carmack, made an alleged quotation from Macaulay, saying that "Burke was on the wrong side of every question." A more complete perversion of Macaulay's estimate of Burke is beyond imagination.

Macaulay never made such a statement. He pronounced Burke the greatest man of his age, and it was a great age. He recalls the fact that Warren Hastings' champion, Major Scott, spoke of Burke as "that reptile," but Macaulay adds that Major Scott was "the greatest bore of his time."

It must have been a startling sound in the Senate of the United States—that Burke "was on the wrong side of every question"—Burke, one of the few leaders in parliament right on the American war, right on civil and religious liberty, right invariably on every moral question.

Edmund Burke is best known and appreciated by Americans in consequence of his grand defense of the American colonists in the British parliament during the revolutionary struggle. If, follows, then, that if Edmund Burke was on the wrong side of this great question, the American revolution was wrong, the declaration of independence was wrong, our forefathers in fighting for their liberties were wrong, all the battles from Concord to Yorktown were fought by the Americans in a cause that was wrong, and our free institutions are founded on principles that are wrong.

And, seriously, is not this the drift of the imperialism that pervades high circles in the Republican party of today?

## Concert On May 24.

The Otterbein Male Quartet of Otterbein University, assisted by Miss Lavina Pearl Shallenberger, dramatic reader and impersonator, will give a concert in the East Main street United Brethren church Saturday, May 24, at 8 p. m. Admission, 25 cents; children under twelve, 15 cents. Tickets are now on sale at Crayton's drug store on the south side of the square, and Warman's hat shop on East Main street. This is the finest college quartet in the state.

## NOTICE OF HOSPITAL SITE.

All persons desiring to offer building site for the City Hospital are requested to furnish same together with the price to the chairman, D. L. Jones, on or before May 15, 1902.

By Committee of City Council.

D. L. JONES,

## OBITUARY.

After a long and painful illness, Nellie Ellen Jones, daughter of Mr. and Mrs. Alex Jones, of Mary Ann township, died May 11, 1902, aged 15 years. The funeral was held Sunday at 11 a. m. in the church at Rocky Fork. The casket was carried by six young girls, friends and school mates of the deceased. Rev. James J. Mullany conducted the funeral exercises. They were brief and to the point. He spoke of the sweet and innocent life of the dead girl and paid her a splendid tribute of admiration and respect. Nellie Ellen Jones was a niece to Sidney Livingston, of Newark.

And Works Off a Cold.

Laxative Bromo Quinine Tablets cure cough in one day. No cure, no pay, 25c.

# MR. GRADGRIND

[Original.]  
I am a tutor in an obscure college. I have been a tutor for twenty years, always having before me the hope of becoming professor, a hope which has been perpetually deferred. My family has meanwhile been increasing, though my salary has remained the same. I had given up any idea of change in my life when one morning the president sent for me and told me that Professor S., lecturer on chemistry, was to take a vacation and I had been selected to give lectures in his department until his return. I left the laboratory in which I instructed beginners and devoted myself to my new temporary duties.

During my lecture the door opened and a gentleman walked in on time took a seat in the row of chairs farthest from me and listened intently to what I was saying. As I have never known any one except the students to attend my lectures, I was greatly surprised. However, I retained my equanimity, stimulated by the presence of the stranger, and flattered myself that I was making my discourse extraordinarily interesting. When I dismissed the class, the visitor remained and approached my desk.

"Permit me to inform you, sir, that the lecture I have just listened to is the most interesting I have ever heard."

I concealed my pleasure at the man's commendation as well as I could, and he went on:

"I am myself something of a chemist in a small way, and, being in your town, availed myself of the privilege of hearing something on my favorite subject. Your charming discourse?"

"Are you a professional chemist?"

"Not exactly—rather a practical one. I have succeeded in combining properties in a way to produce a cleansing material which I am now introducing to the world. I am the proprietor of Gradgrind's eradicator."

I heaved a sigh of disappointment. "I would be pleased to have you make an analysis of the eradicator and if you find it effective and harmless, I will gladly recompense you for your trouble."

"You wish a certificate?"

"That is what I would like, not that the eradicator requires anything but trial. Nevertheless the public is in credulous and needs testimony."

"What would the analysis and a statement be worth to you?"

"Millions, but I am free to say that in the beginning, till we sell the goods, my pecuniary resources are limited. I could make a first payment of all I possess. Let me see." He fumbled in his vest pocket and took out some small change.

"Seventy-three cents is the total assets of one who possesses an embryonic fortune."

The man's pluck won me. "Give me a sample," I said. "I will analyze it and give you the result, but I do not care to take money from one poorer than myself."

He gave me a look of genuine thankfulness and a sample. Inviting him to return the next day after my lecture I went to the laboratory.

When Mr. Gradgrind returned the next day, I told him that his eradicator contained several valuable properties but also an acid that would eat up any substance it touched. He was cast down for a moment, then, brightening up, said:

"Surely one with such a profound knowledge of chemical properties can find another to take its place."

"I had caught the spirit of investigation and told Mr. Gradgrind that I would try and if successful would write him. He gave me his address and departed apparently perfectly assured that I would succeed."

I spent a month searching for an agent that would eat up dirt, grease and such substances without destroying the fabric from which they were to be removed and met with excellent success. I wrote Mr. Gradgrind to come and see me and received a visit from him. The only change in him was that he had grown shabbier.

"Mr. Gradgrind," I said, "I have discovered the required agent."

"Then, sir, your fortune is made."

"My fortune?"

"Yes, sir. If your agent proves satisfactory, I will give you a half interest in the business."

I smiled, gave him the secret and dismissed him and the matter from my mind at the same time.

I neither saw nor heard from Mr. Gradgrind for five years, though every house, barn and fence became gradually covered with advertisements of Gradgrind's eradicator, accompanied invariably by the letters "G. and G."

The only interest I took in the matter was as to the meaning of these letters. Yesterday morning I received a letter furnishing a view of the manufacturing establishment of Gradgrind's eradicator. Thinking it contained testimonials, I was about to throw it into the wastebasket when something, I knew not what, induced me to open it. I took out an account current of Gradgrind & Co. with their silent partner, Samuel Goswell, for the five years of his business and a check payable to my order for \$25,472.25 to balance.

I am still a tutor, for the unexpected windfall came only yesterday. At the close of the present term in June I go upon an extended tour abroad. The president of the corporation of the college, to whom I communicated my purpose and my good fortune last evening, has invited me to return whenever I like as professor of chemistry. Nothing succeeds so well as success.

I shall not accept the offer. There is a great deal of begging nowadays for colleges, and I fear the president has an eye upon my fortune for the benefit of the one over which he presides.

ANTHONY DEANE.

# THE NOVELIST OF '49

Anecdotes of Bret Harte, the American Short Story Writer.

## ENJOYED JOKING AND TEASING.

Amusing Manner in Which He Once Made a Victim of Labouchere, the Eminent London Journalist—Story of His First Literary Effort—His Most Famous Poems.

Bret Harte, the novelist of '49 and the famous short story writer of America, recently deceased, was a good deal of a joker. A man who knew him during his lecture tours in the United States told this story, said a correspondent of the Washington Post:

During a trip over the Pennsylvania circuit Harte found himself one evening in a small town, the very atmosphere of which was depressing. Turning to the committeeman who waited upon him at his room in the hotel, Harte said:

"Is this a healthful climate?"

"Passably," responded the committeeman.

"What's the mortality of this city?"

"About one a day," said Harte. "Come this way a minute," and he drew the committeeman into the recess of the bay window and then said to him solemnly:

"Is the man dead for today? I am going to lecture here tonight, and it would be a great relief to me to know that I could get through alive."

His most famous London joke made a victim of a celebrated man. Dressing himself in the threadbare, frayed, fringed and faded garments which would quite likely be worn by a cross between a bohemian journalist and a tramp, Bret Harte visited the office of Labouchere's Truth and asked to see the eminent journalist. He was ushered into the holy of holies, the inner office of the newspaperman. Mr. P., and told him that he had a poem which he would be pleased to sell and asked Mr. Labouchere to look it over. But the famous lance hurler of the London press at first refused to glance at the offering, but upon Harte's earnestly pleading his immediate need of money Mr. Labouchere hastily examined the production. Then he returned it with the remark:

"I cannot use this trash."

"But, my God," exclaimed Harte, "I'm starving!"

"What do you want for it?" inquired Labouchere.

"Is it worth a pound?" said Harte, with an expression indicating that his heart was crawling up in the vicinity of his larynx.

"Want a pound! It is not worth the paper it is written on," raged Labouchere. "If you want charity, I can give you a few shillings, but it would only be accompanied by advice to the effect that a strong, able-bodied man like you can make more money and give less cause of offense by seeking employment at hop picking or shipping before the mast. Instead of attempting to worm your way into journalism, why did you not join the expedition for the relief of General Gordon? Who are you anyway?"

"Bret Harte" was the answer as the major portion of the disguise was removed and the astonished Labouchere beheld a club companion whom he had known for years. The poem was published, and it was one of Harte's greatest efforts.

Mr. Harte was born in Albany in 1839. He lived in that city till he was ten years of age, when he went to live with his married sister in Broadway, New York city. It was here, too, that his very first literary effort was made, an incident which Mr. Harte related in his deliciously humorous way, says an exchange.

"His sister's husband was a man of mercantile pursuits and of a severely practical turn of mind, who looked upon his wife's small brother as a useless dreamer who would never amount to much of anything in life, and so when young Harte composed some verses at the tender age of eleven and called them 'Autumnal Musings' he felt very much of a culprit, but nevertheless addressed them to the editor of the Sunday Alta and sneaked them into the postbox. They were signed Bret, his middle name, for he was called Frank in those days.

The following Sunday on his way from Sunday school he passed a newsstand where the papers were always spread out on boards and held down with stones. He glanced furtively over them, and there upon the first page of the Alta was his poem. Of course his boyish heart was overjoyed. He scamped home with the precious paper and bravely displayed the poem to his sister and her prosaic husband and owned up to its authorship.

Then what a storm followed. "Never," said Mr. Harte, "have I passed through anything so terrible as that scene was to my young mind. My sister sobbed in anger and shame, and my brother lectured me roundly. They called up the horrors of the life of a literary vagabond, half starved in an attic and I was brought to believe that any one who dared to write verses was criminally inclined."

With these he liked Bret Harte was not unassociated and made himself exceedingly agreeable. He was fond of a quiet game of whist and talked well. He enjoyed teasing when he had a good subject.

A certain ambitious teacher, a New England woman, whom he met in California, had married a wealthy cockney, who ignored the letter H constantly, to her intense disgust. Bret, according

to a correspondent of the New Orleans Picayune, liked to touch her where she was tender and one evening skillfully drew the conversation to the subject of snakes and their words. He managed to get the happy bridegroom well warmed up and thoroughly responsive and then spoke admiringly of "Kathleen Mavourneen," adding: "What are the words? I can never remember them." The unsuspecting subject replied: "Why, don't you know? 'The horn of the 'unter is 'ard on the 'ill,' at which Harte's merry eyes fairly danced and the madam's snipped and swore.

The following are Bret Harte's most famous poems:

**THE SOCIETY UPON THE STANISLAUS.**

I live at Table Mountain, and my name is Truthful James;  
I am not up to small deceit or any sinful games;  
Till to see in simple language what I know about the row  
That broke up our Society upon the Stanislaus.

But first I would remark that it is not a proper plan  
For any scientific gent to whale his fellow-man,  
And if a member don't agree with his peculiar whim,  
To lay for that same member for to 'put a head' on him.

Now, nothing could be finer or more beautiful  
Than the first six months' proceedings of that same Society.  
Till Brown of Calaveras brought a lot of fossil bones  
That he found within a tunnel near the settlement of Jones.

Then Brown he read a paper, and he reconstructed there,  
From those same bones, an animal that was extremely rare;  
And Jones then asked the Chair for a suspension of the rules,  
Till he could prove that those same bones was one of his lost mules.

Then Brown he smiled a bitter smile, and said he was at fault;  
It seemed he had been trespassing on a tramp, Bret Harte visited the office of Labouchere's Truth and asked to see the eminent journalist. He was ushered into the holy of holies, the inner office of the newspaperman. Mr. P., and told him that he had a poem which he would be pleased to sell and asked Mr. Labouchere to look it over. But the famous lance hurler of the London press at first refused to glance at the offering, but upon Harte's earnestly pleading his immediate need of money Mr. Labouchere hastily examined the production. Then he returned it with the remark:

"I cannot use this trash."

"But, my God," exclaimed Harte, "I'm starving!"

"What do you want for it?" inquired Labouchere.

"Is it worth a pound?" said Harte, with an expression indicating that his heart was crawling up in the vicinity of his larynx.

"Want a pound! It is not worth the paper it is written on," raged Labouchere. "If you want charity, I can give you a few shillings, but it would only be accompanied by advice to the effect that a strong, able-bodied man like you can make more money and give less cause of offense by seeking employment at hop picking or shipping before the mast. With these he liked Bret Harte was not unassociated and made himself exceedingly agreeable. He was fond of a quiet game of whist and talked well. He enjoyed teasing when he had a good subject.

When bloodshed and life alone will atone for some trifling misstatement. Maidens and men in their prime recall the last hero of Angels. Think of and vainly regret the Baldheaded Snipe of the Valley."

## PLAIN LANGUAGE FROM TRUTHFUL JAMES.

[Table Mountain.]  
Which I wish to remark,  
And my language is plain,  
That for ways that are dark,  
And for tricks that are vain,  
The heathen Chinese is peculiar,  
Which the same I would rise to explain.

Ah Sin was his name;  
And I shall not deny,  
In regard to the same,  
What that name might imply;  
But his smile it was pensive and childlike,  
As I frequent remarked to Bill Nye.

It was August the third,  
And quite soft was the skies;  
Which it might be inferred  
That Ah Sin was likewise;  
Yet he played it that day, Major William  
And me in a way I despise.

Which we had a small game,  
And Ah Sin took a hand;  
It was such: the same  
He did not understand;  
But he smiled as he sat by the table  
With a smile that was childlike and bland.

Yet the cards they were stocked  
And he took a hand;  
And my feelings were shocked  
At the state of Nye's slacks;  
Which was stuffed full of aces and bowlers,  
And the same with intent to deceive.

But the hands that were played  
By that heathen Chinese,  
And the points that he made,  
Were quite frightful to see—  
Till at last he put down the right bower,  
Which the same Nye had dealt unto me.

Then I looked up at Nye,  
And he gazed upon me;  
And he rose with a sigh,  
And said, "Can this be?"  
We are ruined by Chinese cheap-labor!"  
And he went for that heathen Chinese.

In the scene that ensued  
I did not take a hand;  
But the floor it was strewn  
Like the leaves on the strand  
With the cards that Ah Sin had been hiding.  
In the game "he did not understand."

In his sleeves, which were long,  
He had twenty-four packs,  
Which was coming it strong,  
Yet I state but the facts;  
And we found on his nails, which were taper,  
What is frequent in tapers—that's wax.

Which is why I remark,  
And my language is plain,  
That for ways that are dark,  
And for tricks that are vain,  
The heathen Chinese is peculiar—  
Which the same I am free to maintain.

**DICKENS IN CAMP.**  
Above the pines the moon was slowly drifting,  
The river sang below;  
The dim Sierras, far beyond, uplifting  
Their minarets of snow.

The roaring camp-fire, with rude humor,  
Painted  
The ruddy tints of health  
On haggard face and form that drooped  
Above the pines the moon was slowly drifting.

In the fierce race for wealth;  
Till one arose, and from his pack's scant  
treasure  
A hoarded volume drew,  
And cards were dropped from hands of  
Heedless leisure  
To hear the tale anew.

And then, while round them shadows  
gathered fast,  
And as the freight fell,  
He read aloud the book wherein the Master  
Had writ of "Little Nell."

Perhaps 'twas boyish fancy, for the reader  
Was youngest of them all,  
But, he read, from clustering pine and cedar  
A silence seemed to fall;

The fir-trees, gathering closer in the shadow,  
Listened in every spray,  
While the whole camp, with "Nell" on  
English meadows  
Wandered and lost their way.

And so in mountain solitudes, overtaken  
As by some spell divine,  
Their cares dropped from them like the  
needles shaken  
From out the gusty pine.

Lost is that camp and wasted all its fire:  
And he who wrought that spell?  
Ah! towering pine and stately Kentish  
spire,  
Ye have one tale to tell!

Lost is that camp; but let its fragrant  
memory  
Blend with the breath that thrills  
With hop-vine's incense all the pensive  
glory  
That fills the Kentish hills.

And on that grave where English oak and holly  
And laurel wreaths entwine  
Deem it not all too presumptuous folly,  
This spray of Western pine!

**Wonderful Electric Watch.**  
An invention which is likely to revolutionize the watchmaking industry has been perfected by a Swiss watchmaker named David Perret of Marin, near Neuchatel. It is a watch which goes by electricity, and its special feature is its accuracy. Says the London Mail, it was severely tested by experts, and it was found that it gained only seven-tenths of a second in five weeks. The expert at the observatory at Neuchatel declares the watch to be equal in precision to an expensive chronometer. The watch resembles an ordinary gentleman's lever costing \$60 and goes for fifteen years without being rewound.

**Pingpong Hats.**  
Some women literally have pingpong on the brain, according to the New York Press. From a popular millinery establishment come hats on the turned brims of which pingpong rackets and balls are appliqued in fancy straw. The crowns, too, are trimmed with silk scarfs embroidered in the same design. Then there are stocks both in linen and silk in which the pingpong emblem is used as a decorative feature.

**The Extremes.**  
She (sentimentally inclined)—We never know the true value of anything until we have lost it.  
He—That depends upon whether it's insured or not.—Cleveland Plain Dealer.

# GETTING SPOONY

## SATURDAY, FIRST ANNUAL SPOON SALE

From 9 a. m. to 8 p. m. we will give the following prices:

SOLID STERLING SILVER SPOONS OF ALL MAKES.	REGULAR PRICE.	SALE PRICE.
\$4.50 set of six	.75 each	\$3.50 set of 6, 62c each
5.00 set of six	.85 each	4.00 set of 6, 67c each
6.00 set of six	1.00 each	4.80 set of 6, 82c each
7.00 set of six	1.20 each	5.50 set of 6, 92c each

PLATED SPOONS OF ALL MAKES.	REGULAR PRICE.	SALE PRICE.
Extra plate, set of six	1.25	.85 set of six
Extra plate, set of six	1.75	1.35 set of six
Sectional plate, set of six	2.00	1.50 set of six
Tripple plate, set of six	2.50	1.90 set of six

Table and desert spoons in Sterling and Plated at same discounts.

Limit of Free Engraving on each spoon, three capital letters.

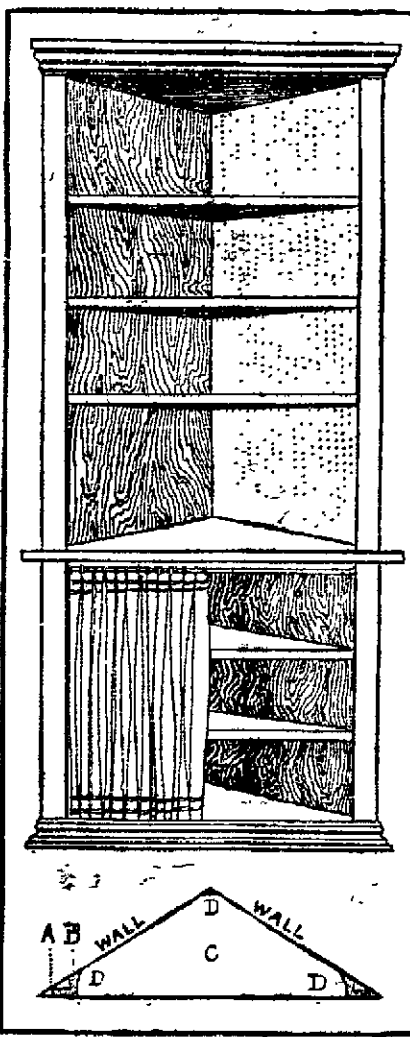

Jewelers. **HAYNES BROS.** Opticians.

### FOR THE HOUSEWIFE

**Summer Curtains.**  
The furnishing of the windows is often a task of trouble and character, especially to the housekeeper who cannot have the advantage of city shopping. In the season's showing of curtain fabrics nothing presents more attraction for use in summer homes or cottages than the white and cream madras, a thin shawl-like material having a closely shewed pattern over it that is done in fluffy surface, much like the snowflake materials. It may be had in cotton at a mere song and by the yard, a boon to housekeepers, since curtains may be made of any desired or necessary length. They are best shirred over the window poles, whether these be of wood or brass. Two sets of curtains at each window are now almost obligatory if fashion is to be followed. The set next the window may consist of two narrow panels of net lace patterned or ruffled or of full curtains lapped the full width across the pole and looped back about five inches below the middle of the window on each side. The full inside curtains may be hung straight or looped at line of the sill. There are endless varieties of soft shaded Indian and oriental weaves of curtain gauze which also are designed for summer curtains and which may be used advantageously in connection with the cream or two toned madras.—Harper's Bazar.

### A Corner Cupboard.

A corner cupboard has the advantage of being useful and effective and at the same time exceedingly economical in the matter of space it occupies. If we can utilize the walls for the two sides of the cupboard, we save a lot of trouble, and this, therefore, I propose doing. If the room is a low one, such as we find in old fashioned country houses, then the cupboard could extend from floor to ceiling but if the room is one with high ceiling then the cupboard might be from 5 feet 6 inches to 6 feet from floor to top. The front should be from thirty to thirty-six inches wide. Two flat pieces of wood some three inches wide and about three quarters of an inch thick should be got out the length of the height of the cupboard. These pieces could be clamped at the edges or a couple of grooves taken out with a plane to add to the appearance, or they can be left just flat. Now, if we get out two further strips about same width, but half an inch thick, to go at right angles to the up

rights (see ground plan; the uprights are A and the side pieces B, we have the main structural details of our cupboard. The use of the side pieces B is to fill out the narrow angles made by the front pieces A and the wall. B should be glued to A and screws might be put through A at top and bottom to add to the strength. The cornice at top and plinth at bottom are wide builder's molding and should be cut just to occupy the angle. The ends where they come against the wall will have to be beveled or cut like the miter of a frame so they fit close to the wall, which they would not do if we cut the molding off square. The cornice and plinth will keep the uprights in position when we come to nail these to the wall.

### Quaint Dutch Designs.

There is always room in the house for one more cushion. If the addition of sofa pillow is to reflect the latest fad in cushion fashions, it will be made of one of the Dutch prints which come in quaint subjects in odd, flat color effects. The prints are sometimes in one color—delft blue or green, for instance—or in several colors. There are Mother Goose subjects, but a landscape, with solemn visaged boy and girl in the characteristic costume of the land of dikes and windmills, from the white cap and apron of the girl to the sabots of the boy, printed in delft blue, is deliciously Dutch. These prints may be made up into attractive summer cushions or they may be used as table covers.

What are known as the India prints in oriental designs in dark blue and white make very effective sofa pillows.

### AMONG INTERURBANS

**BUCKEYE LAKE WILL PUT ON CO. LUMBUS SCHEDULE.**

**Trolley Party from the Capital—Columbus Railway Officials Inspect Johnstown Line.**

(Columbus Dispatch)  
On Thursday the Buckeye Lake road will begin a schedule of trips to Newark. Two cars will be put on, and will make the trip every two and a half hours, the first car leaving Columbus at 6 a. m. As soon as traffic justifies more cars will be put on, and then it is expected to cut the running time down to at least two hours, if not less. The company has arranged to take a big party to Newark on next Thursday evening to attend a lecture and will bring the members home in the evening.

The first trolley party on the C. L. & S. from London left that place Monday evening at 6 o'clock and made the trip in good time. The party spent a short time at the interurban station. The officials of the Columbus railway company were given a trolley ride over the line of the Columbus, New Albany and Johnstown road Monday afternoon. The party was in charge of President D. J. Ryan and General Manager L. P. Stephens, of the interurban road, and consisted of General Manager E. K. Stewart, General Superintendent S. M. Hopkins, Secretary P. V. Burrington, Captain Frank Stewart, Hon. H. J. Booth and E. J. Dawson. The trip was made to Gahanna on good time.

Two new cars are now in service on the Johnstown road and it is expected that another one will be put on in a few days.

The Johnstown road expects to occupy its new station in the Smith building, at Long and Third streets, by June 1. The office rooms will be fitted up in style, and an interurban freight station established there.

The side track to Rarig's on the Johnstown road is about completed, and the new car shed near that point is actually under roof. The company hopes to occupy it this week.

A special telegram to the Dispatch from Lancaster announces that the county commissioners of Fairfield county have extended the time of completion of the Lancaster and Newark Traction company for two years from July 1, 1902.

Lost—Rubber tire off buggy. Finder leave at Ball & Ward's and receive reward. 13-5t

### HOMER.

The Columbus Gas and Fuel Company drilled an artesian well on the Pierson farm, west of this place, on Monday. It is by far the best drilled in yet, and will produce between five and six million feet daily.

John Harrington and wife of Morgan Center, were the guests of Mr. and Mrs. David Emswiler on Sunday.

Rev. Mr. Bauman of Martinsburg, will deliver the address at the M. E. Church here Saturday night.

### Economy is a Great Revenue.

Don't be fooled by anyone charging you more than you can buy for from me; I'll meet the lowest price and loan you the cans. My increasing business proves that my goods are satisfactory. Home Oil at 8 cents per gal. and Home Gasoline at 11 cents per gal. in machine filled and labelled square cans. Stop the wagon or send postal card to C. M. Lines, 150 Wilson street. 3-17-tf

### PERRYTON.

Decoration Day exercises will be held at Perryton, Saturday, May 31, at one o'clock.

Dr. Jameson of Delaware will be orator of the day.

A gay party from Newark spent part of Sunday with Miss Hattie Seward. The party included Catherine Ketchum, Ruby and Ethel Dief Will Lynn and Will Gerlach.

Captain H. A. Montgomery is in Newark on business.

Rev. Murray held services at the Des Moines Church Sunday.

Mrs. A. J. Baker is on the sick list. Rev. Wright of Willow Brook, will preach memorial sermon at Perryton, May 25th.

John Franklin of Newark, was a calling at Captain H. A. Montgomery's Monday.

For sale or exchange, 50 acres, four miles west of Newark, all in grass. Well watered. Reese R. Jones. 5-12-0t

### Queen and Crescent.

Fast line to Birmingham and New Orleans. Two fast trains daily. 5-12-0t

### TWO MILLION

**Tons of Dust From St. Vincent Fell in the Barbadoes—A Report on Mt. Pelee.**

London, May 14.—The following message was received at the colonial office from Governor Hodgson, of Barbadoes:

"The colonial secretary and party have just returned from Martinique and report:

"Pelee began erupting on May 3, becoming very active on May 6. On May 7 the governor proceeded to St. Pierre for the purpose of reassuring the people, no danger being apprehended. About 7.30 on May 8, so far as can be ascertained, a tremendous outbreak occurred, accompanied by a sudden explosion of ignited matter which might be compared to burning sealing wax. The matter in a short time completely destroyed everything within an area of ten miles by six."

The governor then adds a description of the scene, which has already been published and continues:

"Persons on the northern side of the island are taking refuge at Fort de France, where the relief is organizing. The cruiser Suchet is carrying refugees and getting supplies.

"The acting governor and the people are very grateful for food supplies, which are urgently required. The service of medical officers is not required. There were no wounded.

"It is estimated that 2,000,000 tons of dust from St. Vincent fell in the Barbadoes."

### CAPT. STEELE'S FATHER DEAD.

Henry Steele of Cambridge, Ohio, died last Saturday in his 88th year, after a painful illness of more than ten years. He was born near Birmingham, England, and came to America in 1842, settling in eastern Ohio. He was one of the old style of hard-working, frugal men of sterling integrity, whose pluck and hard labor transformed the old American wilderness into the present magnificent country. Mr. Steele was twice married. He leaves a widow and two children by his first wife, a widowed daughter residing in Cleveland, and Captain Steele of Newark.

### TODAY'S MARKETS.

Chicago, May 14.—Today's cattle 13,000, active, ten and fifteen cents higher; hogs 27,000, five and ten cents higher; sheep strong, light.

Chicago, May 14.—Today's closing July wheat 75 3/4; corn 63 1/4; oats 35 1/2; pork 17 1/2.

East Liberty, May 14.—Cattle light, steady; hogs light, active, and 10 cents higher; sheep fair, steady.

## THEY ARE HERE IN NEWARK, O.

The Most Eminent Specialists in America are in Our City and Will Remain Until.

Saturday Night, May 17

Six Days Only and Will Receive Patients While Here at the Parlors of the Warden Hotel.

### Dr. Snell and Staff

New York and Ohio Electro-Medical Institute are visiting a few of the principal cities of our country. This being their advertising trip, and to introduce their new system of curing disease, they will give consultation, examination, advice and all medicine necessary to complete a cure FREE. All patients taking advantage of this offer will be expected to state to their friends the results obtained.

Don't fail to call on these renowned specialists. All diseases of men and women treated. No matter what your disease may be or of how long standing, there is no experimenting or guesswork; you will be told whether you can be cured or not.

They have an entirely new and original method of treating all kinds of deafness which has restored the hearing to hundreds after they had been pronounced incurable. Catarrh in all its varied forms cured so it will never return, by breaking up the cold-catching tendency.

If you have weak lungs or consumption, and have been told you are beyond help, don't fail to call on them and have a thorough examination, as a visit will cost you nothing and may save your life.

Their new discovery of absorbing medicine by electricity, in paralysis, loss of power, rheumatism and all diseases of the nervous system is a godsend to suffering humanity. Medical men stand appalled at the marvelous cures that are being effected wherever this system has been introduced. Thousands who have given up all hope of ever being cured have now an opportunity of a lifetime to consult, without charge, Specialists of a national reputation. Remember, their knowledge of medicine, combined with electricity, gives them control of disease that others do not possess. If you are hard of hearing, are lame, or cannot walk, this new system will cure you quickly.

If you suspect kidney trouble, bring a two-ounce vial of your urine for a chemical and microscopic analysis.

If you are improving under your family physician do not come and take up your valuable time. Idlers and curiosity-seekers will please stay away.

Cancers, Tumors, Ulcers, skin and scalp diseases cured by an entirely new method. Piles and Varicose veins cured in from 5 to 30 days without the knife.

Remember, not one penny will be charged for all the medicine required to complete a CURE, to all those taking treatment during this trip.

Office hours, 9 a. m. to 7:30 p. m.

At the present time many valuable species of big game in South Africa are threatened with extinction. It is proposed to establish regulations for their preservation, and it is suggested that camps should be set apart for the purpose of breeding certain species in order that the country may be restocked with game.

The cereals (wheat, corn, oats, rye and barley) raised in the United States during the past five years represents a value to the farmer of \$6,250,000,000 or an increase of nearly \$1,000,000,000 over the preceding year.

For the year ending July 31, 1901, the mortality in Bombay city was 102.25 per 1000, the total deaths having been 79,350.

The lakes on the Mangashlabe peninsula in the Caspian sea are sweet smelling, owing to the presence of violet-scented seaweed.

The fellow who has nothing to do can generally be depended upon to do it well.

## IN THE FIELD OF SPORT

The base ball games Tuesday resulted as follows:

### National League.

At Chicago. R. H. E.  
Chicago ..... 2 1 0  
Brooklyn ..... 0 5 2  
Batteries, Williams, Menefee and Klung; Donovan and Farrell. Attendance, 1100.  
At St. Louis. R. H. E.  
St. Louis ..... 1 9 1  
New York ..... 3 9 1  
Batteries, Wicker, Yerkes and InChols; Evans and Bowerman. Attendance 1000.  
At Cincinnati. R. H. E.  
Cincinnati ..... 24 28 2  
Philadelphia ..... 2 8 7  
Batteries, Phillips and Peitz, Felix, Voorhees, White and Doolin. Attendance 400.

### American League.

At Baltimore. R. H. E.  
Baltimore ..... 10 16 1  
Washington ..... 3 8 3  
Batteries Hughes and Robinson, Carriek, Donahue and Drill.  
At Detroit. R. H. E.  
Detroit ..... 7 13 3  
Chicago ..... 3 6 1  
Batteries, Slevier and McGuire, Garvin and E. McFarland.  
At Cleveland. R. H. E.  
Cleveland ..... 4 7 1  
St. Louis ..... 3 6 4  
Batteries, Moore and Bemis, Harper and Sugden.

### Reds Slug the Ball.

Cincinnati established the season's batting record in either of the big leagues, and it is doubtful if it will be duplicated this season. All of the Phillie's pitchers looked alike and McPhie's men lambasted the ball to every part of the lot, making 28 hits for a total of 49 bases. Phillips pitched a fine game, allowing 8 hits, well scattered.

### Won With One Hit.

A remarkable game was won by Chicago Tuesday from St. Louis. Selee's men only made one single and won the game. The hit was followed by an error, a base on balls and a sacrifice, giving two runs. Brooklyn could not hit Menefee consecutively in the meantime and were shut out. It is seldom that a game is won with a single hit in the nine innings.

### Injunction Withdrawn.

The plaintiffs in the injunction proceedings brought Saturday to restrain the playing of Sunday ball games have withdrawn their petitions in Judge Babcock's Court at Cleveland, Ohio. Their attorneys stated that inasmuch as Sheriff Barry had prevented Sunday's game and had agreed not to permit any Sunday games in the future, further legal action was not considered necessary.

### Champion Cyclist Killed.

Atlantic City, N. J., May 14.—Archib McEachern, champion motor paced bicycle rider of the world, was thrown from his wheel and horribly mangled by running into his pacing machine at 4:30 yesterday afternoon, while training on the new coliseum track here. He was taken to the hospital, but died without regaining consciousness.

The accident was caused by the chain of the motor pacer breaking. At the time of the accident, McEachern was traveling at a 1:24 pace, and the force of his fall on the boards of the track tore them up for a space of 20 feet. McEachern's head was almost torn off, his jugular vein broken and his lungs partly torn out.

The awful accident was witnessed by hundreds of people who had gathered to watch him.

He went on intending to make a record for the track, which is not yet completed. Alf Boake and Bobby Thorpson, his partners for the past eight years, were riding the pacer. Just as the men were rounding the bank on the last lap of 15 miles the motor chain snapped and flew off. This reduced the speed of the machine but slightly, but enough to allow McEachern's front wheel to strike. The man was thrown about 30 feet ahead and toward the top of the bank. The pacers went on and knew nothing of the accident until they reached the opposite end of the track.

McEachern was Bobby Walthour's partner in the great six-day international.

tional bicycle race at Madison Square Garden in New York last winter, which they won from the best teams in the world.

He was a Scotch Canadian and had for the last five years made his home in Philadelphia. He was 25 years old and besides having been noted for several years as a good bicyclist, was a very good boxer and fought a number of ring battles.

### Sporting Notes.

New York made three fast double plays in Tuesday's St. Louis game.

Delehanty is hitting in his old time form for Washington, which means that all pitchers look alike to him.

The first home run made on the home grounds by a Pittsburgh player, was Fred Clark's four bagger on Monday. The captain received the usual presents for his prowess, offered by admirers and enterprising merchants.

Charley Power the Pittsburg newspaper man on the National League umpirical staff, is making a fine impression by his initial work in Cincinnati.

The University of California track team is now at Princeton, where they will remain until after the inter-collegiate meet, May 30. California and Princeton will hold a dual meet on May 24.

Manager McGraw of Baltimore, now threatens to take legal proceedings against Sheppard, the contract jumper, for obtaining advance money under false pretenses.

Arthur Ball a young ball player was struck by lightning and is now in a critical condition. During a game at St. Joseph a terrific storm broke. The players were hurrying from the field, when some one threw a ball from the grand stand. The player was about to catch it when he was stricken.

### ROWND ISLAND

First Outing of Season Takes Place on Thursday—Crowd Will go via the Buckeye Lake Road.

The first outing of the famous Rownd Island club for the season of 1902 will be held tomorrow and there is every indication that the attendance will be larger than at any outing in the club's history, which extends over a period of several years.

One reason for this is that the trip this time will be taken over the new Columbus, Buckeye Lake and Newark electric road, this making the initial excursion trip from Newark to the Lake. The train will leave the Auditorium, Newark, promptly at 8 o'clock tomorrow morning, and at Hebron will be switched to the branch track for the two mile run to the water. At the Swick house the steamer will carry the party across the Lake to the Shell Beach hotel, which is now operated by Colonel W. C. Wells. The day will be spent in fishing, boating and games and in enjoying one of the dinners for which the club is celebrated. The return trip will be made at 6 o'clock.

Tomorrow the Buckeye Lake road will begin running cars to Columbus.

Attend the Epworth League May Market at the New York Racket Store. 5-14-3t

### CHURCH DEDICATION.

All arrangements are now made for the dedication of the new Sixth street Baptist church edifice, as previously announced, and the services will begin promptly at 10:30 a. m. Friday of this week, and continue over Sunday.

Elder H. A. Todd, of Illinois, will preach the dedicatory sermon. A large attendance is expected at all these meetings. People will be justified in coming long distances to hear Elder Todd. W. H. Hickman, pastor.

Lord Curzon recently unveiled a memorial tablet in the cathedral at Calcutta, in honor of Indian volunteers who died in South Africa, upon which was a verse of poetry written by the Viceroy.

## That Tired Feeling

Is a Common Spring Trouble. It's a sign that the blood is deficient in vitality, just as pimples and other eruptions are signs that the blood is impure.

It's a warning, too, which only the hazardous fail to heed.

### Hood's Sarsaparilla and Pills

Remove it, give new life, new courage, strength and animation.

They cleanse the blood and clear the complexion.

Accept no substitute.

"I felt tired all the time and could not sleep. After taking Hood's Sarsaparilla a while I could sleep well and the tired feeling had gone. This great medicine has also cured me of scrofula." Mrs. C. M. Root, Gilead, Conn.

Hood's Sarsaparilla promises to cure and keeps the promise.

### Announcements.

The Advocate will begin the announcement of the names of candidates for County officers to be voted for at the coming Democratic primaries as follows:

In the Daily Advocate on Thursday, May 15.

In the SemiWeekly Advocate, on Friday, May 16.

This notice is given the several candidates and their friends in order that all may have an equal opportunity in the publication of their announcements.

All announcements should be received at the Advocate office early on Thursday to insure publication on the above dates.

### STATE CAMP

May be Held in Zanesville This Year. Official Action to be Taken in the Matter.

In all probability the state camp of the Modern Woodmen of America will be held in Zanesville July 4 in connection with the big picnic which the members of the local order have been planning for several weeks.

The Courier says: "N. C. Sherburne of Newark, the state deputy for the order, was in the city Monday conferring with the local officials on business matters and he gave them to understand that if they wanted the state camp this year it could be secured, conditional of course, upon their guaranteeing the financial end. The local officials are of course, anxious that the camp should be held in this city and it is almost assured that official action will be taken in the matter in a few days."

### CROW HUNT

Resulted in Slaughter of Fourteen Hundred Birds Near Elgin—Farmers Kept Open House.

Elgin, Ill., May 14.—The annual crow hunt of the Elgin Gun club has resulted in the slaughter of 1,396 crows. The winning side was captained by James Pepple, and there were 770 crow heads brought in to his credit, while the other side, led by Capt. James Morrison, was obliged to be content with 626 birds.

The high score was made by Morrison, who brought in 242. Frank Delaney was a close second. He registered with 235. But 66 men had reported when the contest closed at 9 o'clock. Every sportsman in this section sought the wood, however, and the day was ushered in much like an old fashioned Fourth of July celebration. Guns were heard on every hand in the rural district and the farmer as he woke congratulated himself that the annual war on his old enemy, the century living crow, was again on its earnest.

The farmers kept open house and members of the gun club were welcome at all hours. At each house there was a pot of hot coffee at hand and sandwiches and doughnuts were given out all day.

In some New Zealand towns there are more women voters than men.

### ABOUT PEOPLE

Items Picked Up Here and There Telling of Your Acquaintances Coming and Going.

Mrs. Lon. English of Coshocton, is visiting friends in Newark.

Thad L. Montgomery of Coshocton, was here on Monday.

Phil Miller made a business trip to Mansfield today.

Frank H. Browne went up to Mt. Vernon to appear before the Pension Examining Board.

R. L. Allen of Johnstown, was in the city today.

T. W. Phillips has gone to Lac DuRoi Magnetic Springs.

George H. Blood went over to Columbus this morning.

Marshall Ruckel has moved his family to Chicago Junction.

Barney Byrnes is in Columbus today.

D. H. Pigg was in Columbus Tuesday.

Mr. and Mrs. N. Ruggs are spending the day in Columbus.

Mrs. Smith, wife of Conductor Carr Smith, is spending the day in Columbus.

Mrs. Julia Trost left for Detroit, Mich., this morning, where she will visit relatives for a time.

J. Gleichauf left for Columbus this morning in the interest of the Newark Furniture Company.

F. E. Lagori, of the Fee Hard Wood company made a business trip to Columbus today.

James F. Irvine of Conneville, Pa. after a day's visit in Newark, returned to Pennsylvania Tuesday night.

Mrs. M. E. Crane of North Third street, left Wednesday for Magnetic Springs, where she will spend some time.

Frank Brooke, special agent for the E. & O. railroad company at Chicago Junction, is spending the day with his family in this city.

Messrs. O. C. Jones, Oscar Stevens and Walter Symons, with their wives, are spending the day at Buckeye Lake.

Mr. and Mrs. Thomas Richards, who have been visiting relatives in Columbiana county for the past two weeks, have returned home, after having had a delightful visit.

C. B. Cunningham and daughter, Miss Stella, left for Mountsville, W. Va., this morning, where they will visit Mr. Cunningham's father for a few weeks.

James H. Miller and wife of Newark, are in the city, the guests of the latter's sisters, Misses May and Clara Amos of Pine street.—Zanesville Signal.

Mrs. A. H. Nye, formerly of this city, after a pleasant visit with her sister, Mrs. I. Habenicht of Columbia street, has returned to her home in Forest, O.

J. R. Kellenberger and wife, who have been making their home in Chicago for the past two and a half years, have returned to Newark. Mr. Kellenberger says Newark is good enough for him.

### For Circuit Judge.

The Coshocton Democrat and Standard in speaking of the judicial convention to be held in Newark on June 17, for the purpose of nominating a candidate for Circuit Judge, says:

"The first term of Judge S. M. Douglass, of Mansfield, expires with the close of this year, and members of the bar here, as well as in other counties of the circuit are expressing the desire that Judge Douglass be given a re-nomination. He has during his first term proved himself an industrious, painstaking, capable, honest judge. Though not advanced beyond middle life, his judicial record is not only satisfactory but enviable, and he should be re-nominated by acclamation."

### JERSEY.

School closes here Friday. Commencement exercises will be held Tuesday, May 20.

Miss Electa Parrott of Pataskala, is the guests of friends here.

Quite a number attended the Presbyterial meeting at Granville, Thursday.

P. C. Meredith went to Columbus, Sunday.

Mrs. C. P. Monroe of Columbus, spent Sunday with Mrs. Margaret Monroe.

Rev. Work of Mechanicsburg, Penn., preached here Sunday morning and evening.

J. W. Patterson of Columbus, was in town Monday.

Mrs. F. E. Harrison and Mrs. B. M. Harrison, went to Columbus, Friday.

"A good name" for a man, a merchant or a cigar means recognized character, integrity or value. The "CHILDS" cigar has a good name everywhere

### NEURALGYLINE FOR THE NERVES

ARE YOUR NERVES SHATTERED? Are you on the brink of nervous prostration? Are your nerves all unstrung? Do you feel a general breaking down? It's no wonder! We Americans hustle too hard, we work too much and too long, we tax our nerve power to its greatest capacity. Nerves are not iron! They must give way under the great strain. Have you not already done so? You can tell if yours have by those sleepless, restless nights you have, by those constant headaches you have and by your failing appetite. If you are one of those unfortunate creatures, why don't you try a box of NEURALGYLINE, the great nerve-builder!

IT RELIEVES THE MOST SEVERE CASES OF NEURALGIA AND ALL OTHER NERVE DISORDERS.

I have been a great sufferer from neuralgia. Neuralgyline has effected a permanent cure in my case. Miss E. V. EVANS, Sistersville, W. Va.

Have suffered for over a week with neuralgic pains in the head, unable to sleep and nearly crazed with pain. Thirty minutes after taking one Neuralgyline tablet I was completely cured. Mr. J. B. SIKES, St. Paul, Minn.

NEURALGYLINE is for sale at every first-class drug store in this country and Canada. Sample free. Price per box, 25 cents.

Manufactured by THE NEURALGYLINE CO., WHEELING, W. VA.

### LOUIS E. JONES

ELECTRICAL SUPPLIES AND CONSTRUCTION

Electric Light and Bell Wiring a specialty. All work guaranteed, approved by National Board of Fire Underwriters. Office and residence, 215 North Fifth street. New phone 628.

### Name the Insect!

The denizens of the insect world have a harder time of it each succeeding year. They are bound to be annihilated eventually, and might be now if everybody got in earnest about it.

We have something for the extermination of every insect that runs, creeps, crawls or flies. Name the insect you have a grievance against and we will supply you with the proper means of getting rid of it.

### "WANT" ADS

# MONEY!

Do you need money? If so, call and learn our terms and plans of loaning money to people in moderate circumstances. We loan from \$10 to \$500—on your own endorsement. No publicity. No inquiries. No filing of mortgages—our business is strictly confidential. If you owe any one and haven't the money to pay with we will pay your bills and give you a chance to pay it back in small weekly or monthly payments. If you can't call, either write or phone and we will call on you. Open Monday evenings until 8 o'clock. Open Saturday evenings until 9 o'clock.

## New York Finance Co.

14 1-2 N. Second St., Newark, O.  
Old 13—PHONES—New 698.

# ROYAL BAKING POWDER

Makes delicious hot biscuit, rolls, crusts, griddle cakes and muffins.

A cream of tartar powder, absolutely pure.

ROYAL BAKING POWDER CO., NEW YORK.

## GAS COMPANY

IS ORGANIZED BY PEOPLE IN MT. VERNON

For the Purpose of Supplying Factories With Cheap Fuel—Test Well to be Drilled.

Mt. Vernon, O., May 14.—A new company known as the Knox County Oil and Gas company has been organized in Mt. Vernon with the following members: The C. & G. Cooper Co., James Israel of the Bridge Works Co., C. E. Johnson of the Electric Light and Power Co., Mayor O. Poppleton, R. M. Greer, Judge F. O. Levering, H. C. Devin and Judge J. B. Waight. The officers are as follows: President, C. G. Cooper; vice president, J. B. Waight; secretary and treasurer, Harry C. Devin.

The company has a capital stock of \$25,000, of which \$5,000 has been subscribed to be used as a development fund. The company has three tracts, comprising about 200 acres, under lease in the gas field south of Mt. Vernon, and arrangements are being made for the drilling of the first well which will possibly be put down on the Hunter tract.

The object of the new company is to bring gas to Mt. Vernon for manufacturing at a price at which manufacturing can afford to use it for fuel. Not only those who are associated with the company will be supplied, but the cheap fuel will be used as an inducement to secure new manufacturing for the city. The new company will ask for a franchise to build lines in the city so as to reach the plants of the different manufacturing concerns. It is claimed that the large consumers cannot afford to pay the price now charged for gas for fuel.

## LIFE OF EASE

Given Up by a Millionaire's Daughter, Who Will Become a Professional Nurse.

Minneapolis, Minn., May 14.—Mrs. Harry Robinson, daughter of the multi-millionaire street car magnate, Thos. Lowrey, has started elite circles of Minneapolis by giving up her position in society to become a professional nurse.

Mrs. Robinson is the wife of Harry Robinson, of Chicago, proprietor of the Railway Age. Mrs. Lowrey, her mother, has long been a leader of Minneapolis' most aristocratic society. Mrs. Robinson recently made the announcement that she intended to become a trained nurse.

About a week ago she entered the Northwestern Hospital as a nurse on probation. She was assigned to night duty in one of the wards, and has since been living up to the rigid requirements of the hospital. Every evening at 7 o'clock she is driven by the Lowrey carriage from her father's residence on aristocratic Lowrey hill, to the hospital, and at an early hour next morning the conveyance calls for her at the hospital.

"Clover Leaf" is the only High Patent sold in Newark. It is the most economical, makes more bread and whiter bread than any other flours.

A device invented by Karl Froshack for preventing people being run over when knocked down by an electric tramway car has been tested in Berlin and found satisfactory. By means of a revolving cylinder in front of the car the person knocked down is gently pushed aside without injury or bruising.

A woman may have advanced ideas and still retain her appetite for cream soda.

Two millions Americans suffer the torturing pains of dyspepsia. No need to Burdock Blood Bitters cures. At any drug store.

## CRUELTY PRACTICED

At Girls' Industrial Home Near Delaware—Marion Girl Writing to the Governor, Tells of the Punishment That Was Inflicted Upon Her and Others.

Columbus, O., May 14.—Governor Nash is in receipt of a letter from Marion, Ohio, that not only tends to sustain the sensational testimony offered in the investigation of the Girls' Industrial Home at Delaware, but brings to light the story of additional cruelty that was not obtained at the hearings. Ida M. Kutz, of Marion, O., when other girls bombed her and hurt until a few months ago an inmate of the Home, writes a letter which, in itself, would be good cause for an investigation of the institution. She tells the Governor that she went there when she was about 10 years old, and continues:

"Punishment received by girls at the Home was something beyond description. For instance, the strait-jacket is one of the most cruel instruments of punishment I ever saw. The jacket is made of strong ticking, fitting closely around the waist, with sleeves that touch the floor. When a girl does anything that is considered bad, such as talking over punishments, she is taken to a strong room. This room is rather small, with iron bars at the windows.

"She is put in this jacket and laced up tight, her arms are crossed behind her and brought over opposite the shoulders, and the strings are brought up in front and tied over the lungs. You know by this a girl had very little chance for breathing. Governor, I was in this strait-jacket twice myself on the orders of Miss Taylor, now Matron in No. 6, so you know I understand it. Often times a little stick is placed in the mouths of the girls between their teeth so they cannot holler. Such was the case of poor, unfortunate Nora Ferris.

Miss Myrtle Sellers did not like Nora Ferris for some reason, and every thing she did that didn't suit her Miss Sellers would take her up and paddle her until she would be black and blue. The paddles they used were obtained from Mr. Smith, the carpenter, who made them of very

hard wood. A girl would have to kneel over a chair and be paddled simply on her underclothing. The more she grieved the more the officer would punish her. Mable Thompson, of Toledo, received very cruel punishment. She was colored, and Miss Sellers picked on her the most. She had long hair, and because she complained when other girls bombed her and hurt her Miss Sellers slapped her and cut the hair close to her head. As soon as it got long it was cut again.

"Another case was Ruby Gregory. She lost two sisters of insanity. About three months before she left the home she commenced talking and acting in the same way an insane person does. As Miss Sellers thought she was putting on, she endeavored to make her all right."

Governor Nash's correspondent then tells of the frightful "water cure" and how she and Miss Taylor carried 15 or 16 buckets of water all of which were thrown into the defenseless girl's face. She tells also how Superintendent Stiles threw water into her face and adds that Miss Sellers tied her to a long bench after fastening her hair to a nail, so if she moved her head her hair would be pulled.

The letter says: "Then Miss Taylor sat upon her knees to hold them down and her face was placed under a faucet. The water was turned on full force, and there the poor girl lay until almost gone; when she would be lifted out, and when she would obtain breath she would cry, 'Good-by,' and under the faucet she went again. Miss Sellers worked three days pouring the water into her."

The startling information volunteered by this Marion girl may be the means of continuing the open hearing. It had been decided that further evidence would be taken privately by members of the inquiry committee, but in view of this latest development it is said the board hardly will dare to close the investigation without giving a further public hearing.

## GAVE HIS LIFE

To Save Others—Young Fowler Drowned in Effort to Save Two Companions.

Chicago, May 14.—After rescuing a smaller boy who could not swim, Fred Fowler, 17 years old, living at Downers Grove, plunged into the artificial lake at that place in the attempt to save two others, and lost his life, the pair he was trying to save perishing with him. The four boys had embarked on the lake in a leaky canoe, and it soon let them all into the water. Fowler seized Albert Smith, 12 years old, and swam with him to the shore. He then returned for Leonard Wall and Harry Morris, but they grabbed his arms, so that he was unable to swim, and all three sank. Young Smith standing on the shore, seeing the other boys go down, tied a rope to his waist and, although unable to swim, leaped into the water in an attempt to save them. He managed to paddle out to the three boys and was seized in such a manner that he was unable to do anything. Some men who had come to the scene pulled desperately on the rope in the hope of bringing the quartet to shore, but Fowler, Wall and Morris lost their hold on Smith and were drowned. Smith was pulled ashore more dead than alive, but was revived.

CONCERT—J. B. McDowell, concert pianist of Columbus, will give a recital at Taylor Hall on the evening of Friday, May 3d. Mr. McDowell comes well recommended, and there is no doubt but what his recital will be a rare treat to the music loving people of Newark.

Since the illness of young Theodore Roosevelt the practice of going without hats at the Groton (Mass.) school has been abolished, unless the parents consent and a certificate of permission is obtained.

The 14th International Medical Congress will be held in Madrid in April, 1903.

Kamchatka has many volcanoes, the only ones in Russian territory that are still active.

The number of wool bearing sheep on farms has decreased in a decade from 40,117,200 to 29,237,573, or 23 per cent.

## LOST CHILD FOUND.

A two year old child, named Stapleton, this morning, strayed away from the parents' home, Hoover street, and got down Fourth as far as the home of Dr. J. H. McCahon, where the little one was taken care of until the mother had been notified of its whereabouts, and came and took the child home.

The little child was the daughter of Fireman Herman Stapleton, of 143 Hoover street. The mother noticing the child's absence, called several of the neighbors, and the north end of the city was searched, without finding the wanderer. One of the ladies suggested telephoning to the police, which was done and they, having been notified by Dr. McCahon, readily told her where she could find the little one.

Mrs. Stapleton was overjoyed when she found her little daughter, and gratefully thanked Miss Doran and Mrs. McCahon for keeping her.

## CHRISTIAN SCIENCE.

"While there are many who believe in the work of Christian Science and many more who do not, there is no doubt but that it is one of the most attractive and logical beliefs presented to the public today. The Christian Scientists believe in the Lord Jesus Christ and try to do his will according to their belief, and what more can be asked of any Christian?"—Franklin Evening News.

There will be a lecture in this city on Christian Science by Edward A. Kimball, of Chicago, member of the Board of Lecturers of the First Church of Christ, Scientist in Boston, Mass. Lecture at the Auditorium, on Thursday evening, May 15, at 8 o'clock. Admission free.

ST. PAUL'S LUTHERAN CHURCH. The teachers' association meets this evening at 8:45 after which the mid-week prayer service will be held. Pastor Schindler will give a lecture on "The Kind of a Congregation a Preacher Likes."

# Bon Ami

Is used in the form of a thin lather and will not scratch.

## IN CONTEMPT

Was Witness Declared and He Was Ordered to Prison by Mayor Forry.

The case of the city of Newark on complaint of John Fitzgerald vs. Grace Wilson, was called in the City Council chamber this morning at 9:15, before Mayor Forry. The Wilson woman is charged in an affidavit with keeping a disorderly house on Railroad street. John Wesley Simmons was the first witness called by the prosecution and he created a mild sensation when Attorney G. C. Daugherty began his examination. The witness demanded his fees in advance, but the court ruled that this could not be done in a criminal case.

Simmons still refused to testify and was declared in contempt by Mayor Forry and committed to the City Prison for 24 hours and to pay the costs, to which place he was started by Officer Zergiebel.

It was said that Simmons had been offered \$20 not to testify in the case, and it was learned that he told J. W. Thompson of Haag & Thompson, that he could make \$20 by not attending the trial, but did not tell Thompson who offered the money.

Simmons claimed he was not a witness as he had never had any subpoena, but he waived this upon being sworn, and answering the preliminary questions.

The court told him that if he decided to testify before the trial ended he could do so, and would be purged of contempt.

At the time of the Advocate's going to press the case was still on trial.

## MR. REAMOR

Refused to Surrender City's Property and Contable Took Possession Wednesday.

Several days ago the Street Committee, under instructions from the City Council, contracted with Mr. Charles Wells to do the engineering work of the city, to succeed Clermont Reamer. Mr. Reamer refused, however, to turn over the property of the office to his successor, and this afternoon, at the instance of the City of Newark, Constable Cunningham served a writ of replevin for possession of the property belonging to the city in Mr. Reamer's hands, and also a summons for him to appear before Judge Atcherly on the 19th of May to answer to the action of the City of Newark. Mr. Reamer refused to give possession of the room, and the Constable secured a padlock and had the door locked.

As has been heretofore stated in the Advocate, Mr. Wells, who was the County Surveyor, immediately upon being notified that he had been appointed to the position of Civil Engineer, tendered his resignation as County Surveyor to Judge C. W. Seward, which was accepted. Mr. Wells is a son of Col. W. C. Wells, and is a most thorough and efficient engineer. His appointment will be of value to the city and is popular among the citizens.

## Major Williams of Denison.

Granville, Ohio, May 14.—Major Wm. Williams, who has been on duty as Professor of Military Science and Tactics at Denison university, this place, since September of 1900, recently acted to be relieved from duty, which request has been honored by the Secretary of War, as attested by the following order.

Headquarters of the Army, Adjutant General's Office.

Washington, May 2, 1902.

Special Orders, No. 104.

Extract:

15. By direction of the President, Captain William M. Williams, U. S. Army, at his own request, is relieved by the Secretary of War from duty at Denison university, Granville, Ohio, to take effect May 31, 1902.

By command of Lieutenant General Miles.

H. C. CORBIN,

Adjutant General, Major General U. S. Army.

At present Major Williams is undecided whether or not he will remain in Granville. He has received calls from several military colleges in the country to accept of the Professorship of Military Science and Tactics. Should he decide to leave Granville, however, he and his estimable family, who have many friends during their stay in Granville, will take with them the best wishes of all. It is hoped that they will decide to remain in Granville.

## A JUDGE'S WIFE CURED OF PELVIC CATARRH.

She Suffered for Years and Felt Her Case Was Hopeless—Cured by Pe-ru-na.

Mrs. Judge McAllister writes from 1217 West 33rd st., Minneapolis, Minn., as follows:

"I suffered for years with a pain in the small of my back and right side. It interfered often with my domestic and social duties and I never supposed that I would be cured, as the doctor's medicine did not seem to help me any."

"Fortunately a member of our Order advised me to try Peruna and gave it such high praise that I decided to try it. Although I started in with little faith, I felt so much better in a week that I felt encouraged."

"I took it faithfully for seven weeks and am happy indeed to be able to say that I am entirely cured. Words fail to express my gratitude. Perfect health once more is the best thing I could wish for, and thanks to Peruna I enjoy that now."—MINNIE E. McALLISTER.

What used to be called female diseases by the medical profession is now called pelvic catarrh. It has been found by experience that catarrhal diseases of the pelvic organs are the cause of most cases of female disease.

Dr. Hartman was among the first of America's great physicians to make this discovery. For forty years he has been treating diseases peculiar to women, and long ago he reached the conclusion that a woman entirely free from catarrhal affection of these organs would not be subject to female disease. He therefore began using Peruna for these cases and found it so admirably adapted to their permanent cure that Peruna has now become the most famous remedy for female disease ever known. Everywhere the women are using it and praising it. Peruna is not a palliative simply; it cures by removing the cause of female disease.

Dr. Hartman has probably cured more women of female ailments than any other living physician. He makes these cures simply by using and recommending Peruna.

Miss Phoebe Cary Sheffield, writes from Seguin, Texas, as follows:

"I have followed your directions and treatment, and will always thank you for your kindness. Your medicine is the only medicine that gave me relief from heavy pains in my chest, on account of which I could hardly rest at night. Several of my friends thought I would go into consumption. I now think I am

MRS. JUDGE McALLISTER.

well, but will always have a bottle of Peruna in the house. I think Peruna is the best medicine in the world, for I went to my home doctors and they never did me any good, but when I took your medicine it did me all the good in the world. I have recommended your wonderful treatment to my friends. Since I have taken Peruna I look like a new woman."—Miss P. C. Sheffield.

Mrs. William Kenning, Mt. Clemens, Mich., writes:

"I am happy to be able to write you that I am now again well. I was not well for a year, and did not know what ailed me. Last fall I got a bottle of Peruna. It did me good. I wrote to Dr. Hartman for a book 'Tills of Life,' and he luckily sent me a book about my disease."

"My disease was catarrh of the head, eyes, stomach and liver, and he said if I would follow his advice I would soon be well. I followed the directions closely, and am now entirely well."—Mrs. William Kenning.

Congressman Thad. M. Mahon, of Chambersburg, Pa., writes:

"I take pleasure in commending your Peruna as a substantial tonic and a good catarrh remedy."—T. M. Mahon.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

## \$25 Reward

To the first person who proves to us that any other carpet cleaning works in Newark can clean carpets by compressed air. This offer is open to every one. Apply to

## KATES & WRIGHT,

251 to 253 North Fourth Street.

## "HE'S MY SON"

Said the Woman to the Court and She Sternly Refused to Take the Stand.

Indianapolis, May 14.—Ernest Blue, a young man, was arraigned for assaulting his mother, Mrs. Mary Sullivan. Both carried marks of a serious conflict. The young man was literally covered with scratches.

The mother was called as a witness, but she sternly addressed the court, remarking:

"Ernest Blue is my son; you can send me to jail, prison or any place before I will testify against him."

The court warned the woman that she was in contempt, but she stubbornly refused to talk, and the Prosecutor managed to make out a pretty fair case against the defendant, having his own admissions and the testimony of the police.

It developed that the young man is industrious and regularly turns his salary over to his mother for her support, but she is insanely jealous of other women to whom her son is disposed to be attentive and will suffer him to have no "company." The boy paid no fine and then went to hunt another boarding place, saying that he and his mother must separate.

## For Over Sixty Years.

Mrs. Winslow's Soothing Syrup has been used for over 60 years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

The largest oyster ever found on British shores was dredged off Christchurch head. It weighed 3 1/2 pounds and measured seven inches across.

Kansas permits the sale of spirits for mechanical purposes, and one applicant writes that he needs "four gallons mechanically—going to have a barn raised."

## Notice to Undertakers.

Sealed proposals will be received by the Trustee of Newark township for the burial of the poor of said township where township aid is required. Bids should be for furnishing coffin and robe, box for coffin and use of hearse. Bids will be received by the Township Clerk until Monday evening, June 2, 1902, at 7:30 o'clock.

The contract to be let for one year. The Trustee reserves the right to reject any or all bids.

H. F. SHOWMAN, Township Clerk.

Sat and wed tf

Notice to Physicians.

Sealed proposals for medical attendance upon the sick poor of Newark township will be received by the Township Clerk of said township, until Monday, June 2, 1902, at 7:30 o'clock p. m. Such proposals must be for personal attendance and the furnishing of necessary medicines and surgery, also to perform all necessary cases of obstetrics.

The contract to be let for one year. The trustees reserve the right to reject any or all bids.

H. F. SHOWMAN,

Sat and wed tf Township Clerk.

On the Move.

"They have two servants."

"Hub! that's nothing; we usually have two in our house—one coming and one going."—Philadelphia Press.

Fashoda, though an important post in a dreary and desolate collection of huts and tents reeking with malaria and mosquitoes," writes Sir Edmund Leatham who recently undertook a journey up the White Nile. To the south of Fashoda he found the natives quite destitute of clothing and old sparklers in great demand for necklaces.

Every sack of "Clover Leaf" Flour is good, try a sack and you will always use it as it is certainly superior flour.

The lightning change artist is not so much amazed with a storm of applause.

use and prefer spraying. The price, including spraying tube, is 75 cents. Sold by druggists or mailed by Ely Brothers, 56 Warren street, New York.

## B. &amp; O. EXCURSIONS

Excursion tickets are sold every Sunday between all local stations west of the Ohio river on the Baltimore & Ohio at rate of one fare for the round trip, good going and returning on date of sale only.

**COLORADO, UTAH, SOUTH DAKOTA.**—The Baltimore & Ohio Railroad Co. will sell low rate excursion tickets to points in Colorado, Utah and South Dakota during June, July, August and September.

**MEMORIAL DAY.**—On May 29 and 30 the Baltimore & Ohio railroad company will sell low rate excursion tickets to all points west of Pittsburgh within a radius of 150 miles from seign station. Tickets will be good for return until May 31, 1902.

**CALIFORNIA.**—May 26 to June 7, inclusive, the Baltimore & Ohio Railroad Co. will sell low rate excursion tickets to San Francisco and Los Angeles, Cal., account Imperial Council, Nobles of Mystic Shrine, good to return 60 days from date of sale.

**MARION, OHIO.**—May 19 and 20, the Baltimore & Ohio Railroad Co. will sell excursion tickets from all local stations in Ohio to Marion, O., at rate of one fare for the round trip, account I. O. O. F., Grand Lodge of Ohio. Tickets will be good for return until May 24, 1902.

**FINDLAY, O.**—June 2, 3 and 4, the Baltimore & Ohio Railroad Co. will sell excursion tickets from all local stations in Ohio to Findlay, O., at rate of one fare for the round trip, account Sunday School Association of Ohio. Tickets will be good for return until June 7, 1902.

**CLEVELAND, O.**—May 26 and 27, the Baltimore & Ohio Railroad company will sell excursion tickets from all local stations in Ohio to Cleveland, Ohio, at rate of one fare for the round trip, account Ohio Republican State Convention. Tickets will be good for return until May 29, 1902.

**HARRISBURG, PA.**—May 15 to 20 inclusive, the Baltimore & Ohio Railroad Co. will sell excursion tickets from all local stations west of the Ohio River to Harrisburg, Pa., at rate of one fare for the round trip, account German Baptist Brethren Conference. Tickets will be good for return until June 2, 1902, but may be extended until June 30, by deposit of ticket with Agent of terminal line at Harrisburg.

**ST. PAUL, MINN.**—On May 17 to 19 inclusive, the Baltimore & Ohio Railroad Co. will sell excursion tickets from all local stations west of the Ohio River to St. Paul, Minn., at rate of one fare plus \$2.00 for the round trip, account National Baptist Anniversary. Tickets will be good for return until May 29, but may be extended until June 30, by deposit, and payment of 50 cents to Joint Agent.

**COLUMBUS, O.**—May 19 and 20 the Baltimore & Ohio Railroad Co. will sell excursion tickets from all local stations in Ohio to Columbus, O., at rate of one fare for the round trip, account 50th Anniversary, Ohio Christian Missionary Society. Tickets will be good for return until May 24, 1902.

**CINCINNATI, O.**—May 26 and 27 the Baltimore & Ohio Railroad Co. will sell excursion tickets from all local stations in Ohio to Cincinnati, O., at rate of one fare for the round trip, account of Grand Lodge of Ohio, Knights of Pythias and Pythian Sistershood and Rathbone Sisters. Tickets will be good for return until May 30, 1902.

**COLUMBUS, O.**—May 22, 23 and 24 the Baltimore & Ohio Railroad Co. will sell excursion tickets from all local stations in Ohio to Columbus, O., at rate of one fare for the round trip, account United Commercial Travelers of America, Grand Council of Ohio. Tickets will be good for return until May 26, 1902.

**PORTLAND, OREGON.**—May 26 to June 7, inclusive, the Baltimore & Ohio Railroad Co. will sell low rate excursion tickets to Portland, Oregon, account National Convention of Travelers' Protective Association of America, and Supreme Lodge Ancient Order United Workmen, good to return 60 days from date of sale.

## OBITUARY.

Miss Rosey Willey, daughter of W. C. Willey, was born September 23, 1876 and died May 12, 1902, aged 25 years, 7 months and 19 days. Death again has visited our midst and stolen away one who was dear to her mother and brothers and sisters and relatives, and to all who knew her. She was an invalid daughter, who was confined to her bed for over four years. She was a kind, true and loving young woman. Burial was made at Rocky Fork cemetery.

Try Mrs. Austin's Quick Lunch Tapioca, the new dessert. Ready in a minute, no soaking required. All grocers sell it.

Horsemen: Call and see Romanow at Priest's Fifth Street Livery Stable.

J. H. LEVERING & CO., 173 East Main street, for fresh country butter and eggs, received daily. All kinds of groceries and produce delivered to all parts of the city. New and old phone. 4-21-dimo

For electric fans see A. N. Banton, 49 North Third street. 4-15-d30t

## STUDENT OF NATURE

ONE AMERICAN WITHOUT ANY AMBITION TO BETTER HIMSELF.

He Suggests the World Old Question Whether the Life That Has the Fewest Wants Is Not the Most Desirable.

[Special Correspondence.]  
Fort Erie, Ont., May 12.—Many and many a year at the eastern extremity of Lake Erie across the Niagara river from Buffalo has dwelt in a cottage on the shore John Bird, fisherman, American civil war veteran, philosopher and the most undistinguished great naturalist in existence.

Born woodsman, he lives with nature. He loves her better than he does his own wife and children. Oftentimes

HE LIES FOR HOURS STUDYING THE SKY.

after breakfast early in the morning he dives into the heart of the woods or disappears along the beach, and that is the last sign of him for days. His family are not uneasy, for they know him. When at length he does return, he comes laden with specimens, animal, vegetable or mineral, that prove a cluster of berries, again a wonderful, beautiful shell or a chip of uncommon rock. He knows the haunts of every little wild creature and its habits, knows where and how every species of bird nests and rears its young, knows to the hour when fish can be caught in Lake Erie and when not. A ripple on the lake, a scale of cloud, the stirring of a branch, tells him what the weather is going to be.

He lies upon the sands of the shore for hours studying the sky, the water or the myriad unknown miniature entities that have their being in the sand itself. Once as he thus sprawled upon the beach he said to a friend: "Ever hear of an ant lion?" "Yes." "Ever see one?" "No."

"Then I'll show you one. It's no bigger than the head of a pin." There was a tiny depression in the sand between them, so slight that not one person in a hundred would have noticed it. Bird caught an ant and tumbled it into the tiny depression.

"Now watch," he said.

Sure enough, in an instant the ant was sucked downward and out of sight by some invisible force beneath.

"Now watch again," said John Bird. He took a bit of stick and dug into the hole, when out came, still holding fast to the ant, a sand colored mite of a creature, so small one could hardly see it. Now, how many of us know there is such a thing as an ant lion in America?

In return for his love of her nature shows John Bird how to keep himself in health. He has no occasion for doctors' stuffs. He knows a leaf, root or herb for every ailment of the flesh and applies it. When he himself is out of condition, which is of very rare occurrence, he takes his own prescriptions and is John Bird the well again.

He is over six feet high and for that reason is called thereabout "Little John Bird." Except for a slightly crippled forearm, he is as nearly a perfect specimen of physical manhood as lives in the land today. He can row a fishing boat against the wind half a day and not be in the least knocked out. For this half day's rowing he charges 50 cents. He looks to be thirty-five years old, but says he is seventy-four, and he certainly was a soldier in the civil war and got a gunshot wound that disabled his wrist.

"You ought to have a pension for that, John," said a friend.

"I can make my own living," he replied. "Government's got too many deadbeats hanging on to it now. Anyway, what do I want of money? I get all I want from rowing and fishing for people in summer."

He is happy—happy all day long—and he is the only happy man I know of, but in order to be happy and healthy is it necessary to live like John Bird? SUSAN PEPPER.

## Advocate Puzzle Picture.

WHERE IS THE OTHER PIRATE?

## NEWS OF THE BUCKEYE STATE.

**FRAZEYSBURG.**—At a meeting of the Board of Education Professor W. H. McDaniel, formerly of Fultonham, was elected superintendent of the schools to succeed Pro. J. M. Carr, representative from this district.

**BUCYRUS.**—Miss Florence Wilkinson, daughter of the landlord of the Gibson House at Crestline, is said to be the youngest waitress in Ohio. She is 7 years old and yet she does her work with perfect satisfaction to the guests.

**COLUMBUS.**—The State Board of Public Works has appointed Charles Hatch of Akron, Superintendent of the Ohio Canal, vice W. F. Hildebrandt, resigned. The office force will not be appointed until next month. All other employees are reappointed.

**DELPHOS.**—The seniors at the local high school went on a strike because the juniors had worsted them in an effort to keep class colors flying. The School Board has advised Prof. Lewis to notify them that unless they are at their desks at once they will be expelled. Expulsion would carry with it the loss of diplomas at the end of the school year, May 21.

**MARYSVILLE.**—Mrs. Mary Overfield of North Lewisburg, has brought suit against her brother, Wm. E. Bates, asking \$5,000 damages for an alleged assault which is said to have taken place in a law office. The brother and sister were disputing over their father's estate, when the brother, it is said, knocked his sister down. He alleges that the sister attacked him.

**MANSFIELD.**—The semicentennial meeting of the State Congregational Association opened here last night. About three hundred delegates are in attendance. Communion service was conducted by Rev. C. W. Wilson, of Ashland. Dr. Washington Gladden of Columbus, Rev. Morgan Wood of Cleveland, and President Darrows of Oberlin, are on the program. The first meeting of the association was held here 50 years ago.

**MARION.**—Clad in a native costume, living on a diet of rice, fruit, fish and grasshoppers, and the husband of a dusky belle of a Filipino village, of which he is said to be the actual chief, is the lot of Charley Thompson, a former Marion boy of good family. He enlisted in the army at this place in 1899, and was assigned to Company L, Fifteenth Infantry. Thompson professes to enjoy the happy-go-lucky existence he is leading, and he and his bride appear to be happy.

**CANTON.**—The receiving vault at Westlawn Cemetery, which guards the flag-draped remains of President McKinley, will be embowered in an ever-changing mass of bright flowers throughout the coming summer and autumn. Mrs. McKinley has placed an order with a local florist to refill and maintain the floral pieces with fresh and got a gunshot wound that disabled his wrist.

Work on the decoration has already begun, and a number of the large floral pieces have been restored to bloom and beauty at the hands of the florist.

of his five months' sentence to the workhouse. Hancock was convicted of assaulting his aged father-in-law, Jesse McAllister, and the latter died during the fight. Hancock has just presented a petition with 75 names attached asking for a parole, and the Commissioners refused it.

**COLUMBUS.**—The residents of fashionable Broad street, near Fourth, were driven into their homes where doors and windows were locked and barred, by the appearance of a swarm of bees. The bees made for every moving object, and men, women and children were obliged to throw dignity to the winds in order to evade the honey makers. The bees finally swarmed on a tree at the entrance of the Columbus Club, and more than one hungry business man was kept away from dinner because he was afraid to pass the swarm. The bees were not hived until a man was summoned from the country.

**"Clover Leaf" Flour for fine cakes and pastry.**  
Heller's Testimony.

Albert Heller, living at 1114 Farnham street, Omaha, says: "I have tried most everything that is used as a preventive or cure for headache, but nothing did me so much good as Krause's Headache Capsules. Others who have used them say the same thing." Price 25c. Sold by all druggists.

**Peaches For Market.**

There is a great "upset" in peach planting, especially in Georgia and Texas. This fever seems to have spread all over the United States where the peach will grow and in some places where I fear it will not thrive. Peach trees are being planted in great quantities. Nurserymen write that it is impossible to supply the demand. Circular letters are coming to us with reports of the freeze, and in some sections the outlook for peaches is not favorable. In general I am inclined to think there will be a full peach crop.

G. B. Brackett, Pomologist, United States Department of Agriculture.

**Plan to Catch Moles.**  
I would like to say that moles are easy to get rid of, writes a correspondent of Breder's Gazette. In my boyhood in eastern Pennsylvania I cleaned up a farm of moles. Get a few four gallon stone jars well glazed. Set them in the ground so the top will be a trifle lower than the moles' path, disturbing the path as little as possible. Now tramp down the path for two feet on each side of the jar lightly. They will raise the old path and fall into the jars. In the morning you will find two in each jar, as they mostly go in pairs. Now some one tell what to do for gophers and even up.

**Keeping Sweet Potatoes.**  
Several thousand men, many of them practical farmers, have told us a great many ways of keeping sweet potatoes. It is easy enough to keep sweet potatoes if they are put up without any spores of rot in or on them. But how about those which already have their cellular structure permeated by the mycelia of black rot, dry rot, soft rot or any other rot? No amount of care in handling or housing will save potatoes thus affected.—Farm and Ranch.

**Brains on the Farm.**  
The farmer who farms with his head as well as his hands is the one who can expect to amount to something these days.—Cotton Planters' Journal.

**Read Advocate "want ads."**

Impossible to foresee an accident. Not possible to be prepared for it. Thomas' Electric Oil—Monarch over put.

**To Cure the Grip in Two Days.**  
Laxative Bromo-Quinine. Put the cause. E. W. Grove's signature on every box.

## CHAMP CLARK STORIES

Humor With Which Statesmen Regale Each Other.

Judge Griggs Tells of a Pleasant and Infallible Cure For Insomnia—Not Suited For Teetotalers—A Lawyer With Qualifications—A Startling Application of the Theory of Averages. The Retort Humorous—Story of Grover Cleveland.

[Copyright, 1902, by Champ Clark.]  
"Advice is cheap" is an old saying and true. There have been books published with such fetching titles as "Every Man His Own Lawyer" and "Every Man His Own Doctor." When I was actively engaged in practicing law, I used sometimes to wish that every man in my bailiwick had a copy of the first, for every one that ever possessed one straightway got into a lawsuit and had to employ a lawyer to get him out. It would be the making of the physicians if every citizen possessed a copy of the second. The number of "sure cures" showered upon a sick man by his friends adds another pang to disease. As a rule these kind suggestions aggravate the victim. Occasionally one amuses him.

**Infallible Remedy For Insomnia.**  
Sweet Robbie Burns denominated toothache as "the hell of a disease." Evidently the immortal poet had never been afflicted with insomnia or he would have made no such statement.

Judge James M. Griggs of Georgia, though in the very flower of his years and generally in robust health, has of late been considerably pestered with insomnia. The other morning somebody asked him how he was getting along. Various remedies were suggested. Judge Griggs said: "A veteran statesman in Georgia suggested to me during the holidays this sovereign and infallible remedy for insomnia: 'On going to bed take a good stiff drink of whisky. If you don't go to sleep in half an hour, take another. If not asleep in another half hour, repeat the dose. If not asleep in another half hour, take another drink, and then you will be so happy that you won't care a continental copper whether you go to sleep or not.'"

**"Not Lawyer Enough to Hurt."**

In order to tell a joke of which the point is against himself a man must possess a great deal of good nature. Hon. James T. Lloyd of Missouri is a very successful lawyer, having been prosecuting attorney two or three terms. One day he tickled the cloak room habitués with this: "A minister of the gospel was a guest in the home of one of his members near Shelbyville, where I live. In the course of a conversation between the minister and the lady of the house she expressed herself in strong terms in opposition to lawyers, reflecting severely upon their character and reliability. In fact, she went to the extreme of declaring that lawyers were neither truthful nor honest. Later on my name was mentioned, whereupon she spoke in very complimentary terms concerning me. This surprised the minister, who exclaimed, 'Why, Sister So-and-so, I thought you had no confidence in lawyers?' to which she quickly and naively responded, 'Oh, Mr. Lloyd is not lawyer enough to hurt.'"

**Wit of a Colored Gentleman.**  
One of Lloyd's most prominent constituents is Colonel Rufus Easton an derson of Hannibal, an able lawyer and a most incorrigible wag. Lloyd tells with glee how Rufus had the joke turned on himself by a colored gentleman.

The latter applied to Colonel Rufe for advice as to his title to a small piece of real estate. The colonel examined his books for about ten minutes and gave an opinion for which he charged \$10.

In a short time thereafter he told the negro to saw up a load of wood. Having finished the job, he went to Rufus' office and demanded his pay. "How much is it?" asked the colonel. "Ten dollars," replied the son of Ham, which made the colonel gasp with astonishment, and he roared, "Why, you oldascal, there wasn't more than a half cord of it, and it can't be worth more than 50 or 75 cents!" "Now, look here, Marse Rufe. You charged me \$10 for dat 'pinyn' you gib me 'bout my place, and I wucked loughan dan you did," which so surprised and tickled Rufus that he forked over the \$10 and chuckles about the negro's cunning to this day.

**Mr. Burton's Humorous Retort.**  
There is a rule—I think a statute—to the effect that no appropriation shall be made for any port, harbor or stream unless there have been an antecedent examination and a survey under the supervision of the engineers' department and a report made thereon.

In the last congress Mr. Gordon of Ohio asked Mr. Chairman Burton of the committee on rivers and harbors to give him a slice in the shape of a nice little appropriation to improve the St. Mary's river. "But," said Burton arrogantly, "it can't be made navigable." "Oh, yes," replied Gordon. "There have been a survey and an examination, and the engineers report that it can be made navigable only by locking and damming it." "They also report," retorted Burton, "that it can't be locked and isn't worth a dam."

**Colonel John T. Heard's Story.**  
One day in congress Colonel John T. Heard, for many years a conspicuous member of the Missouri delegation in congress, now a Washington attorney, was sitting by my side when Mr. Richardson of Tennessee was addressing

the house. Heard said: "When Grover Cleveland was entering upon his first term, Richardson, Benton McMillin, Benjamin Augustine Enloe and the remainder of the Tennessee delegation went to the White House to induce the president to appoint a Tennesseean, Major Percy, to some diplomatic position in South America. After they had all made their speeches of recommendation Mr. Cleveland said: 'Gentlemen, I hope your friend is a man of good habits. We have had a good deal of trouble at that particular place owing to the libidinous character of our representative there. Is Major Percy a sober man?' 'Oh, yes, Mr. President. He is a teetotaler,' replied Enloe. 'They can't say anything else against him.'"

**Are Congressmen Malingers?**  
For more than a third of a century the Louisville Courier-Journal was my political vade mecum. I date on Marse Henry Watterson. For many wearisome years and during half a dozen hot campaigns I fought enthusiastically under the banner of Colonel Watterson and that of his star eyed goddess. Up to 1896 I was willing to follow his flaxen topknot wherever it waved and showed the battle was the hottest, though, unlike the white plume of Navarre, it did not always point the way to victory. Marse Henry is one of the most brilliant of mortals. I am proud to count myself among his host of personal friends, but I fear that he is growing pessimistic and is beginning to view the world through yellow instead of rosy spectacles. In The Courier-Journal a year or so ago appeared this amazing paragraph:

"The house is now composed of 357 members, of whom four-fifths do hardly anything to earn their salaries. To most of them, perhaps, the idea of earning their salaries has not occurred. It is considered unparliamentary to suggest that a congressman ought to earn any part of his salary. It is a very liberal estimate to say that 20 per cent of the members of the house do practically all the work. Ten per cent of them do most of the work. The remainder are merely malingers, who are already far too numerous."

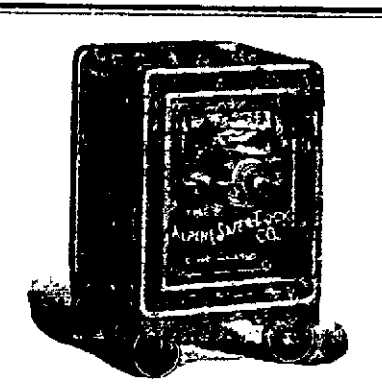

**Not a Soft Snap.**  
It surely must be that Marse Henry's utterance is a wild extravagance. Instead of 80 per cent of representatives being "merely malingers" a vast majority of them were hard workers before they came to Washington and became harder workers after they began their service in the house, not because they wanted to, but because a sense of duty compelled them to. If any gentleman anywhere is incubating a congressional boom on the theory that it is a soft snap, I repeat to him Puck's famous advice, "Don't!"

I know my own experiences in life better than I know those of anybody else and will sum up my entire existence since I can remember as "forty odd years of unremitting toil." I never have taken a vacation because I never had the leisure. I have worked as a hired hand on a farm, clerked in a country store, edited a country newspaper, taught all sorts of schools, from the most rudimentary sort in a log cabin in the hill county of Kentucky at 14 to the presidency of a college at 23, and have practiced law 25 years, yet I am willing to make affidavit that, excepting six months' service in the Missouri legislature, I never worked as hard anywhere or at any time as I have during my career in congress.

I am not complaining of the work, for I voluntarily and eagerly sought the position. I am simply setting down my own experience in refutation of Marse Henry's preposterous extravagance and as a preface to the statement that the average representative works as hard as I do. The floor work, which is the showy part, is really the least of a representative's labor. Many of them who are not speechmakers toil like galley slaves in committees and in the departments, yet their names rarely appear in the public prints. Some of the orators of the house are indefatigable in the discharge of routine duties. Are these men "merely malingers?" Do they earn their salaries?

**A Statesman's Morning Work.**  
I am unwilling to let The C.J.'s statement go even at that. At the risk of being denounced as egotistical I will, for the benefit of all congressmen and of everybody else interested directly or indirectly, set forth one morning's work which fell to my lot recently. I dictated 31 letters to my secretary, hunted up things asked for in them and writing them kept him on the jump all day. I then went to the war department to have a bill allowed for a doctor who had attended a sick soldier at home; thence to the department of justice to try to have a postmaster pardoned out of the pen for embezzlement; thence to the postoffice department, where I had one postoffice re-established and two free rural mail routes established; thence before the committee on rivers and harbors to argue for appropriations for the Mississippi, Mississippi, Gasconade and Osage rivers, and all prior to 12 o'clock noon. Now, I am not writing this for my own glory, though I have talked a good deal about myself as the most feasible way "to point a moral and adorn a tale," but I have written it as a duty to the body of which I am a member. I wish that every paper in America would copy it as an antidote to the article quoted from The Courier-Journal, a journal widely read and religiously believed in by thousands of good people. Colonel Watterson is gallant enough to have lived "when knighthood was in flower" and brave enough to have ridden "with Spottwood round the land or Raleigh round the sea," and he owes it to the 80 per cent of the 357 representatives who, according to his arithmetic, "do practically no work," to make the anecdote honorable, for he has done them a grievous wrong.

## THROUGH EUROPE

Mr. L. P. Schaus is Now Traveling—At Geneva, Switzerland,  
Mr. Schaus Writes Another Letter to the Advocate  
Telling of Some of the Principal Points  
of Interest Visited.

Mr. L. P. Schaus, who has written several interesting letters to the Advocate from points in the east, sends the following under date of April 25 from Geneva, Switzerland:

It has been some time since I have found time to write to you. Since leaving the ship there has been so much sight seeing and traveling that I have not had much time to write except a few postal cards. My health has been very good so far, and I am enjoying the trip very much, but it is hard work traveling and sight seeing. I have not received very much news from Newark lately, the Advocate having failed to reach me for some time. I suppose I will receive a lot of them when I reach Liverpool. They forward the letters from there, but not the papers. About the only American news we get is a little from the Paris edition of the New York Herald, and that is not much.

Now, about our side trip across Europe. We arrived at Rome on the afternoon of March 29, (Saturday) in all, about four hundred of us. About one hundred, myself included, were registered at the Hotel de Rome, a very pleasant place, where we spent a week. On the first evening of our arrival myself and a few friends went to the old Coliseum, where we attended a musical entertainment. There were about one hundred voices. After the entertainment the lights were all turned out and the old ruins were illuminated by burning different colored powders and different kinds of fire works were set off, which produced a very beautiful effect.

On Easter Sunday morning I had the pleasure of attending High Mass at St. Peter's which was very beautiful and interesting. During the week we visited all the different sights of interest, spending three days in driving about. Monday we visited the Catacombs of St. Calixtus, where there had been about one hundred and seventy thousand persons buried, but there are none of the remains there now. These catacombs are under ground, and are laid out in narrow passages or streets, like a small city, and places are dug out on either side where the remains were placed one above the other. We also visited St. Paul's Cathedral, outside the walls, which is very fine. We drove out the old Appian Way and returned by the new Appian Way. We were also shown through Truonadis Chapel. In the center of a small stretch of the old Appian Way we were shown a piece of marble on which is represented the footsteps of Christ when he met Peter on the old Appian Way. We were shown a number of old Cathedrals in each of which were some special things of interest. One of these proved very interesting to me, being the church of Santa Maria de Cappuccini, founded in 1624 by Cardinal Antonio Barberina. Under the church is a crypt called the mortuary chapels of the Monks, consisting of five arched chapels, the floors of which are of holy earth, brought from Jerusalem, in which the monks are buried and allowed to remain for a certain length of time, when the skeletons are taken up to make room for other bodies. The bones are used to ornament the sides and ceilings of these fine chapels. The skulls and bones are also built up into piers, and arches turned over them, and niches made where whole skeletons are either standing up or lying down at full length. It is a very gruesome scene. There are about four thousand of these skeletons used for this purpose.

On Friday, April 1, we were taken to the ruins of the old Roman Forum and given a lecture by Prof. Raynaud on the different ruins, which was very interesting. All of these old ruins are very grand to look upon. We were also given a lecture by Prof. Raynaud at St. Peter's, on Rome, and St. Peter's. We were then shown through the art gallery of the Vatican and also the art museum, and where they make the fine Mosaic pictures. They were all very interesting and one could spend many days in these places alone. The Vatican is very extensive, adjoining St. Peter's, containing in all about eleven thousand rooms, large and small. We enjoyed Rome very much. It is a very beautiful city and is kept very clean.

From here we divided up into small parties for our different side trips across Europe. I am taking the G.

trip, which requires seventy days to make from Rome to Liverpool. This is the longest of Mr. Clark's trips through Europe. Our party consists of only seven persons, besides our director, being myself and six ladies, and we are having a fine time. The party being small, our sight seeing is made easier than with a large one, and the persons composing the party all being agreeable, makes it very pleasant.

We left Rome Saturday afternoon, April 5, for Pisa, where we spent Sunday at the Hotel Victoria. Sunday morning we all attended mass at the cathedral, after which we visited the Baptistery, the Campo Santo cemetery and the Leaning Towers, from the top of which we had a splendid view of the city and surrounding country.

Monday at 11:30 a.m. we left Pisa for Florence, arriving there at 2:30 p.m., and were nicely located at the Grand Hotel de Europe. We were given a full day's carriage drive here, visiting all the different points of interest—visiting the old cathedrals, art galleries and museums. Florence is also a very interesting city, with fine buildings and well paved streets which are kept very clean.

Thursday, April 19, we left Florence for Venice, where we arrived the same evening at 11 o'clock and were taken from the station in gondolas to the Grand Hotel. Here our sight seeing was all done in gondolas, and we did not lose much time. There are no horses on St. Mark's church. There are no streets which they could be used on. Venice was very interesting to us. While on one of our gondola rides we had the pleasure of seeing Don Carlos, the Spanish Pretender and his wife, who were enjoying a ride. We spent our evenings on the water, listening to the beautiful music and singing of the serenaders. We remained here over Sunday, when I again attended High Mass, this time at St. Mark's church. After mass I went to the top of the Campanilla, where I obtained a beautiful view of the city and the Adriatic. I also visited the old prisons in the Palace of the Doges and had the pleasure of walking over the Bridge of Sighs. We left Venice with regrets at not being able to remain longer.

Monday at 8:45 we left for Genoa, where we arrived at 8 p.m., where we were nicely located at the Grand Hotel de Genes. The next morning we were taken in carriages and given a three hours drive to the principal places of interest. Genoa is the principal seaport of Italy, and is quite a manufacturing city.

We left Genoa at 1:45 p.m., Tuesday the 15th for Nice, and had a very interesting ride along the sea coast, the distance being 116 miles. There are ninety-eight tunnels, large and small, by actual count, for we counted them.

At Genoa I had my first mishap, one of the young ladies of our party had been bothered with the toothache for several days, so I went with her to a dentist and after an examination she decided to have it pulled, and so ordered. The dentist, however, was very slow, and as it was nearing train time I sent a note to our director at the hotel to get our baggage and to go on to the station with the rest of the party, and we would take a carriage and come direct to the station, which we did; but on arriving at the station and looking over the baggage found that mine had been overlooked and there was no time to send for it. I was therefore compelled to go on to Nice without it and had to rough it for three days until we passed through Genoa again when I recovered the much needed baggage.

We are having all kinds of experiences, for instance, at our hotel Saturday night we were having dinner, and the young lady of the toothache, was sitting next to me and wanted a biscuit. They serve a kind of biscuit here instead of bread. We rarely see any bread. She was compelled to ask two or three times for a biscuit, when finally the waiter seemed to understand and went off. Pretty soon he came back and set down a bottle of whisky in front of her. We keep hav-

Thursday morning  
Some wash goods half price  
Some 35 & 50c. hose, 15c pr  
Kimono Pongee silks, 50c yd

ing little experiences like this that are very amusing.

We arrived at Nice the same evening in time for dinner, and located at the Westminster Hotel, right on the sea front, with our rooms facing the beautiful Mediterranean. The next morning at 8 o'clock we were taken in carriages for a drive over the mountains to Mentone and Monte Carlo. The mountain drive was beautiful. Away up on the mountains, nearly to the top, we noticed the big show bills of Barnum & Bailey's greatest show on earth, which was advertised to be at Nice on the 5th of April. We had our luncheon at Monte Carlo, after which we were admitted to the gambling casino by card, and given permission to remain and watch the players as long as we liked. We watched them for a couple of hours, and it was very interesting. There were fourteen tables in use, with from twenty to thirty players at each table. There were not only men but women and young men and women sitting about the different tables, playing with great interest. It was quite interesting to watch the faces of the different players. Many thousands of dollars changed hands in the short time we were there, but there seemed to be no excitement. The gambling casino is a beautiful place, a veritable palace, and the city of Monte Carlo and Monaco are beautifully located. The buildings are all of good design and pure white, surrounded by beautiful gardens of flowers and shrubbery, and it makes a beautiful picture. We returned to Nice by another road along the sea, which was also a very beautiful drive. Nice is laid out more like our American cities, the streets being wide and well paved, and the buildings are very fine.

On Friday morning we left Nice for Milan, arriving there at 10:45 p.m., at the Grand Hotel. Saturday morning we were taken for a three hour drive to see the sights, among which was the Cathedral, which is considered one of the finest. It is certainly very beautiful. We even viewed it from the roof, from which we also obtained a good view of the city and surrounding country.

We left Milan at 1:40 Saturday and arrived at Como at 3:30, where we took a boat on Lake Como for Bellagio, distant 18 miles where we arrived about 6:30 o'clock and located at the Grand Hotel Bellagio. The ride up the lake was very pleasant, with high mountains on either side, and most of them covered with snow. We spent a very pleasant Sunday in Bellagio. It is a small place, but very interesting.

Monday, at 10:30 we left on a boat for Menaggio, across the lake, about five miles, where we took a train over the mountain to Porlezza, where we again took a boat on Lake Lugano for Ponte Tresa, distant about twenty-six miles. At Ponte Tresa we took a train for Luno on Lake Maggiore, and then a boat on Lake Maggiore for Baveno, where we stopped over night and until three o'clock the next day.

The trip over the lakes of Northern Italy and the beautiful scenery is very interesting. We made numerous stops at villages along the lakes. The boats are very comfortable and make good time, running on regular schedules and making connection with the trains. The railroad travel in this country is much better than I had anticipated. The road beds are good and they have good stations. The cars are different from ours, being much smaller and all in compartments but very comfortable. They have no system of checking trunks, but we are taking ours with us by registering them through from place to place, and they always turn up in our rooms soon after we get there.

The weather since we left the ship at Naples has been fine, not too warm, but pleasant for going around sight-seeing. An overcoat mornings and evenings is always comfortable. We left Baveno at 3 o'clock p.m. for Domo d'Ossola, going part of the way by carriage and the remainder by rail, arriving there at 7 p.m., and remaining all night. From this place we started by coach over Simplon Pass, starting at 6:30 a.m. and at 12:30 we reached Simplon, where we had lunch. This point is nearly half way, the whole distance being 41 miles from Domo d'Ossola to Brieg. After luncheon we started again, but at the next station, where they change horses, we had to change from the coaches to sleighs and then our fun began. First, before taking the sleighs our coach got stuck in a snow drift, and we had to get out in order to get the coach released. Then while in the sleighs we encountered an avalanche and was compelled to wait until the road was cleared of the snow. Soon after starting again we had a

narrow escape. If the driver had not whipped up his horses we would have been covered with snow, if not swept over the precipice. As it was, our sleigh was pretty well filled with snow. The banks of snow on either side of the road that had been cut through were from six to fifteen feet high and the snow was getting soft and very treacherous. I would not care to go through it again. We had several other incidents, more or less exciting before we got through with the sleighs. Part of the time we were sleigh riding on the snow and part of the time on the ground. We went about ten miles in sleighs and were compelled to make the remainder of the trip by coach. We reached Brieg at 7 p.m. and remained there all night. Brieg is situated in the beautiful valley of the Rhone. From here we had intended going by rail to Martigny and then by diligence over the Tete Noir Pass to Chamounix, but received word that it was blocked with snow drifts, and that we would have to walk a portion of the way. So after our experience of the day before, the ladies did not care to make the attempt, so we gave it up and came direct from Brieg to Geneva, part of the way by train and about fifty miles by boat on Lake Lemman. This was a delightful ride. We had our luncheon on the boat, arriving here last evening at 6 o'clock, in time for dinner. The mountain scenery over Simplon Pass was very grand and along the lakes it is very interesting. We will remain here until next Monday, when we will continue our journey. We were driving this afternoon and visited the Russian church, the Cathedral, the home where Calvin lived, the City Hall or Hotel Duvell, and visited the room where the commission sat that decided the Alabama claims, Sept. 14, 1872. There is a marble tablet set in the wall giving the date of the decision. The plow and pruning hook made from the sword and presented to Geneva, is also in this room, with a history of it. We also saw the prison where the assassin of the Emperor of Austria is confined. With very best regards to all my friends, I remain, Yours very respectfully,  
LEWIS P. SCHAUS.
